MYAS POOL PLAY TIEBREAKER

2-TEAM TIE

In any situation where 2 teams are tied, head-to-head competition between the teams shall determine the winner.

3 OR MORE TEAMS TIED

Step One:

If more than 2 teams are tied, a point differential tiebreaker will be applied. The point differentials of the teams involved in the tie are totaled. Teams are then ranked according to the sum of the point differential, and the team with the highest ranking is determined the pool play winner. (Regardless of actual game scores, 15 points is the maximum plus or minus total that will be factored into the point differential calculation)

NOTE: Once the pool winner has been determined via the point differential, the tie between the remaining 2 teams shall be broken based on head-to-head competition.

Step 2:

If more than 2 teams are still tied after the application of Step 1, the point differentials of the teams not involved in the tie are added, and the results recalculated.

Step 3:

If more than 2 teams are still tied after the application of Step 2, a 3-way flip of the coin shall break the tie, with the odd team being declared the pool winner. The tie between the 2 remaining teams shall be broken based on the results of their head-to-head competition.

SPECIAL NOTE: All forfeits are scored 15-0

All scores are entered into the system and are calculated by the system. Tiebreakers WILL NOT be hand calculated at the sites.
