SCORESHEET COMPLETION GUIDE

Pittsburgh Amateur Hockey League

HEADER INFORMATION

- The home team should be on the LEFT; the away team should be on the RIGHT. The Association Name + Team Number should be entered for each and the correct home/away designation circled.
- All PAHL games are "TIER II", but no designation is required for the top line of checkboxes.
- The game information should be completed before the warm-up starts, with the exception of the curfew time.
- The curfew time shall be entered by the Scorer when the warm-up period starts, and the initials of each head coach should then be obtained prior to the opening face-off to confirm the curfew time.
- Team information (players and team officials) should be added by the respective teams to each side via stickers on each page or legible printing that shows through to each page.
- The "printed names" section can be completed at any time, but the on-ice officials are not to sign-off on the scoresheet until the conclusion of the game.

SCORING INFORMATION

- All scoring information (goals/penalties) is recorded as the time remaining in the period – as shown directly on the game clock – and not as the time elapsed in the period.
- The scoring information must only come from a referee (not a team member).
- The scoring (goals/penalties) for the home team is recorded on the LEFT; the scoring for the away team is recorded on the RIGHT.
- Goalkeeper statistics must be tracked throughout the game and recorded at the end of each period.
- For recording penalties, OFF is the time of the penalty; START is the clock time when the penalty starts; ON is when the penalized player returns to the ice (either penalty expires or a power-play goal is scored).

GOALS

Every goal should include an "type" designation:

- P = power play goal
- E = even-strength goal (most common)
- S = shorthanded goal
- EN = empty net goal (will also be a E/P/S)
- Penalty shot goals are "E" unless the scoring team is on a power play at the time of the shot
