The Competitive form will ask you to select your club and the team you are officially rostering with under NTSSA with that club. If you don't see them, STOP. You need team/club to add your player to the club and that team so they have the NTSSA competitive role with them. Then you will be able to see them as options when completing the form.

When done, they should show as completed on the Past Forms tab.

Notify coach/manager when complete.
