Communication can be done in two ways using the Sports Engine app. The first is with email using the Messages feature. Messages sends an email to any or all email address connected to the profiles of the players on the team's roster.

The second is with the Chat feature; this feature goes to ALL parents/guardians associated with the players on the team's roster and cannot be sent to an individual person only. This feature is only available through the app and parents who have not downloaded the app will not see Chats.
