**Subject:** Regular OSCAR updates on functionality and solutions

Ontario Soccer, in partnership with SportsEngine, launched the Ontario Soccer Club and Academy Registry (OSCAR) in January 2019 and with it retired the former registration system 'AIMS.'

Ontario Soccer has seen a tremendous response from the Clubs and Academies who are now using OSCAR - the system which authenticates registration, sanctioning and insurance – on a day-to-day basis to import and register players for the 2019 outdoor season.

In alignment with the successful launch and transition to OSCAR, Ontario Soccer has identified the need to provide greater up-to-date information on the status of OSCAR, its functionality and available solutions.

As such, Ontario Soccer has added an additional page to its website where regular updates and changes to OSCAR can be found for those who are active in using the registration platform on a more consistent basis.

Regular, responsive communication between the membership and SportsEngine about OSCAR has been ongoing and will continue and this additional resource, found on [OntarioSoccer.net](http://OntarioSoccer.net), will only further serve to keep club, district and academy administrators up-to-date on the latest information.
