Team Standings – Preliminary Round Games (All Divisions)

Each team will be awarded three (3) points for a win in regulation; two (2) points for a win in overtime or shootout; one (1) point for a loss in overtime or shootout, and zero (0) points for a loss in regulation.

The Home team for the Championship games will be determined by the Tournament Director.

Tie-breaking rules to determine standings position are described in full in the USA Hockey District & National Guidebook for the current season. If two or more teams have an equal number of points, their position in the standings shall be determined by the tie-breaking rules listed below. If at any point during the application of the tie-breaking rules, any or all of the teams can be seeded higher or lower than the other teams, the seeded teams will be placed in their position in the standings and the tie-breaking process will begin at Step 1 for any teams that remain tied.

Step 1: The results of only head-to-head games played between the tied teams in the following order:

- a. **Most points earned.**
- b. **Most total wins** (whether in regulations, overtime and shootout).
- c. **Most regulation wins.**
- d. **Differential** – Subtracting goals against from goals for in these games, the positions being determined in order of greatest surplus. A maximum goal differential of plus or minus eight (8) per game will be used in tie-breaking rules.
- e. **Quotient** – Dividing the goals for by the goals against in these games, the positions being determined in order of the greatest quotient. If a game has a goal differential of more than eight (8) goals, the goals for will be decreased until there is a maximum of either (8) more than goals against in a given game prior to dividing (i.e. 10-1 game would use 9-1 for purposes of quotient). A quotient involving dividing by zero (0) has higher standing than a quotient from dividing by any number other than zero (0). Where two or more teams have no goals against and the quotient tie-break is required, the teams shall be ranked high to low in descending order of “goals for.”
- f. **Most periods won** – In the games played by each tied team, points will be awarded for each regulation period won (2 points) and for each regulation period tied (1 point). Positions shall be in order of highest point total.

Step 2: If all tied teams have not played each other, the tie-breaking process shall be as described in the USA Hockey District & National Guidebook for the current season.

Preliminary Round Games Ending in a Tie

If the game is tied following regulation play, one (1) ten-minute sudden-death overtime period shall be played 3-on-3 (three skaters plus a goalkeeper). At the completion of the third period, the tied teams shall receive a two (2) minute rest period, shall remain on the ice, but shall change ends. If the score remains tied at the end of the sudden-death overtime period, a shootout will be played as described in the USA Hockey District & National Championship Tournament Guidebook for the current season.

Championship Games Ending in a Tie

If the game is tied following regulation play, one sudden-death overtime period equal in length to the 3rd period shall be played 5-on-5 (five skaters plus a goalkeeper). At the completion of the third period, the tied teams shall receive a two (2) minute rest period, shall remain on the ice, but shall change ends. If the score remains tied at the end of the sudden-death overtime period, a shootout will be played as described in the USA Hockey District & National Championship Tournament Guidebook for the current season.

Player Penalty at End of Tied Game

*Any player serving a penalty at the end of any tied game or at the end of a tied overtime period will continue to serve that penalty into the sudden-death overtime period or shootout.

- Teams will shoot in the same order during the sudden-death shootout as they did in the previous round shootout.
- Teams will select their shooters to participate in any order in the sudden-death shootout, whether or not they shot in the previous round. The last player in the first round of the shootout may be the first player in the sudden-death shootout.
