

THE USA HOCKEY
FOUNDATION

ANNUAL REPORT

2021-2022

OUR MISSION

The USA Hockey Foundation is the **CHARITABLE** non-profit corporation that provides long-range financial **SUPPORT** for USA Hockey and promotes the **GROWTH** of hockey in the United States.

The Foundation's primary **GOALS** are to enhance USA Hockey's mission and activities; to provide funding for **EDUCATION** and **TRAINING** of high-performance athletes; and to provide **OPPORTUNITIES** for greater participation **THROUGHOUT** the **COUNTRY**.

THERE'S NOTHING LIKE THE OLYMPIC AND PARALYMPIC GAMES

The 2021-22 season was special for many reasons, highlighted by the Olympic and Paralympic Winter Games in Beijing, China, and the hard work and training put forth by our athletes in their quest to win gold.

The Foundation, through its Raise The Flag Campaign, was at the forefront in helping provide important resources to support USA Hockey's mission of excellence and its unending efforts to be on the top of the medal podium at the Games.

Through the generous contributions of our donors, The Foundation provided critical financial assistance with both planned and unforeseen needs, and that support played a significant role in the preparation for the Games and the success our teams enjoyed.

There is no bigger stage in sports than the Olympics and Paralympics, and thanks in part to the great

passion of our benevolent community of donors and supporters, our Paralympic sled hockey team won a fourth consecutive gold medal; our women's Olympic team took home silver; and our men's Olympic team won all three games of the preliminary round before losing a heart-breaking quarterfinal game in a shootout.

While the Olympics and Paralympics were a priority, there were many other worthy causes that The Foundation supported during the season and we invite you to enjoy some of those stories in the pages ahead.

As we move forward, new priorities are on the horizon and we are excited to help positively shape the future and support USA Hockey's efforts to welcome new and diverse audiences to the game.

GIFT OF STOCKS

(719) 538-1164

MATCHING GIFT CONTRIBUTION

The USA Hockey Foundation
EIN: 74-2553720

Company matching gift programs give donors the opportunity to increase the impact of their gifts by doubling or even tripling the gift size. Ask your employer if your company has a matching gift program.

PLANNED GIFT

The USA Hockey Foundation Heritage Society honors individuals who have included The USA Hockey Foundation in their estate plans through bequests, retirement plan designations, charitable trusts or other deferred gift arrangements. We gratefully acknowledge Heritage Society members and appreciate these donors foresight and dedication to our organization.

DONOR SPOTLIGHT

KRISTOPHER AND RACHEL KNAUSS

Kris and Rachel Knauss reside in Anchorage, Alaska, with their three kids: Paxson (14), Willow (11), and Kane (5). Kris is a fifth-generation Alaskan and Rachel is a third-generation Alaskan who grew up in Wasilla.

Professionally, Kris is the managing partner of Confluence Strategies, Inc., Alaska's largest government affairs and lobbying firm operating out of Juneau.

All three of the Knauss children have participated in USA Hockey, with the youngest, Kane, recently beginning his hockey journey. Kris grew up playing, then coaching 14U, 16U, and 18U Tier I through a multitude of local programs.

He then began administering the Pacific District Boys Player Development Camps and later was elected as Pacific District Director.

Currently, Kris serves as a director representative on the USA Hockey Executive Committee and serves as chair of the USA Hockey Player Development Committee. He is also part of USA Hockey's Youth and International

Councils. Outside of USA Hockey, Kris serves on the University of Alaska Anchorage Hockey 5th Line Board of Directors, which was instrumental in advocating to retain the NCAA Division I men's hockey team following fiscal and budgetary cuts.

"We support The USA Hockey Foundation as we see great benefits to our community, affiliates, and districts. We believe our sport not only provides a great athletic environment for young athletes, but supports a culture of lifelong relationships, and a commitment to give back what has been given through the sport. We are true believers in the player development program of USA Hockey and strong advocates for the U.S. Women's National Team, as they are true pioneers of the sport. Rachel and I are true hockey fans and we love watching the games in person. From 6U, to a nephew in the NAHL, to NCAA Division I, and an occasional NHL game through our travels."

USA Hockey and The USA Hockey Foundation are fortunate to have such dedicated and loyal volunteers and supporters as Kris and Rachel Knauss.

MEMBERSHIP RELIEF FUND

The USA Hockey Foundation, in conjunction with USA Hockey, launched the Membership Relief Fund in 2020 to assist families facing financial hardship by covering the cost of their child's USA Hockey membership. This program continues to be a huge success and is making a difference for players and their families around the country. The success of this program shows the spirit and compassion of all those who love the sport of hockey and want to give others the opportunity to play the game.

COLIN AND WENDY CHRISTIE

Colin and Wendy Christie currently live in Atlanta, Georgia. They share a love of the sport of hockey and have played recreational hockey for the past 10 years. They understand the costs associated to play the sport and want to help give others the opportunity to play the game. Each month, they make a conscious decision to give back to the game by being one of our dedicated and loyal monthly, recurring gift donors.

The Christies, who have been married for 23 years, know the importance of teamwork. They believe hockey is a great character-building sport and a fun social outlet which they both enjoy. Colin also enjoys individual sports such as running, cycling and weight training, but believes there is nothing like the great sport of hockey. Colin and Wendy share and show their love of the sport by giving back and creating new opportunities for youth players around the country.

DANIEL AND CHELSEY HARTNETT

Daniel and Chelsey Hartnett live in Dallas, Texas, with their two golden retrievers. Daniel grew up in upstate New York and started skating at the age of four on a neighbor's backyard rink. One step on the ice and he was hooked on the sport.

Daniel understands the costs of the sport can be challenging for families and does what he can to broaden the reach of the game and make it more inclusive to others. The Hartnett's donated to the Membership Relief Fund in order to give everyone the opportunity to lace up skates on a crisp morning and enjoy the game of hockey.

Daniel said, "Hockey is a unique sport that combines physical, mental and emotional aspects of life all into a compressed 45-60 minute time frame. There are so many components to a hockey team and game that can directly translate to aspects later in life. Sports set people up to deal with the ups and downs throughout life. Whether in business or any other professional organization, the ability to compete on a team and work as a cohesive unit is something that is very difficult to establish the fundamentals outside of sports. In general, sports impacted my life by keeping me active, and busy, and by fostering relationships that I still cherish today."

GIVING BACK

USA Hockey is privileged to have many generous members who chose to make a gift to The USA Hockey Foundation during their registration process. This season, over 26,600 donations were made by our members at the time of registration, helping raise over \$456,000. These donations help fund programs, increase participation and provide opportunities for players at every level. We are grateful to our caring and selfless members for making a gift at the time of registration and are overwhelmed with their generosity. Every dollar invested in the sport of hockey makes a huge impact on our players, programs and growth in the sport.

Thank You!

“

“Our family loves hockey and never wants to miss an opportunity to help more families get their kids involved. The donation option at registration makes it easy to help get more kids into the game!”

“There is no better feeling than to be able to give other children the same opportunity as my child and I appreciate being able to donate to The USA Hockey Foundation at the time of registration.”

“Playing hockey has helped develop me into the person I am today. To give back to this sport and help others to experience the game that I love is an honor.”

“I love helping others and I appreciate the opportunity to donate to The USA Hockey Foundation when I register to play hockey. You make it easy to help others.”

“I didn’t realize that I could donate at the time of registration. USA Hockey has given my children so many opportunities and I want to do the same for other children.”

FOUNDATION HIGHLIGHTS

THE BRIANNA DECKER ENDOWMENT FUND

The Brianna Decker Endowment Fund for Girls Hockey was established in 2019 to benefit 8U and 10U girls hockey programs within Brianna's home state of Wisconsin. Due to the program's growth and popularity, the endowment was expanded nationwide during the 2021-22 season with four USA Hockey associations selected as recipients to help grow their girls hockey programs. Those associations include: Marshfield Youth Hockey Association (Marshfield, Mass.), Palouse Youth Hockey Association (Moscow, Idaho), San Jose Jr. Sharks (San Jose, Calif.) and Winthrop Youth Hockey Association (Winthrop, Mass.). Decker celebrated with two of the grant award winning associations at a special event at the Hobomock Rink in Pembroke, Mass., where she engaged the teams with a special meet and greet, autographs and a surprise visit from Blades the Bruin, the Boston Bruins' mascot.

GIRLS HOCKEY DAY

The Boston Bruins hosted Girls Hockey Day with Wasabi Technologies to promote growth, encourage participation and celebrate girls hockey. Alex Carpenter and Caroline Harvey from the 2022 U.S. Olympic Women's Hockey Team helped facilitate the day and through their efforts, \$10,000 was donated to the Brianna Decker Endowment Fund.

THE ASPENTECH FUND

The AspenTech Fund awards grants to youth hockey players residing in the eastern Massachusetts towns of Bedford, Billerica, Burlington, Chelmsford, Concord, Lawrence,

Lexington, Lowell and Woburn. During the 2021-22 season, \$4,500 was awarded to nine youth players in Massachusetts. The funding they received helped keep these youth players enjoying the sport they love.

DISABLED HOCKEY FUND

The USA Hockey Foundation launched a fundraiser to help raise funds for the Disabled Hockey Fund during the 2022 USA Hockey Disabled Festival held in April 2022 in Pittsburgh, Pa. USA Hockey-branded dog bandanas were distributed to the service dogs at the festival and those who donated to the Disabled Hockey Fund received a bandana for their furry friends.

HOCKEY HISPANA FUND

The Hockey Hispana Fund was established in 2021 by Jimmy Dawson and his family to benefit 8U and 10U Latina youth hockey players in Colorado. For the 2022 season, grant awards were distributed to two deserving grant recipients. The grants included covering hockey registration fees for the season, as well as assistance toward their hockey equipment.

JIM JOHANNSON LEGACY FUND

The Jim Johansson College Hockey Player of the Year Award winner, Minnesota State University's Dryden McKay, selected the Mankato Area Hockey Association as the recipient of a \$5,000 grant award from the Jim Johansson Legacy Fund to help enhance youth hockey. This is the fourth season the grant has been awarded.

U.S. HOCKEY HALL OF FAME

The U.S. Hockey Hall of Fame Class of 2020: Dean Blais, Tony Granato, Jenny Potter and Jerry York; and Class of 2021: Stan Fischler, Paul Holmgren and Peter McNab were formally enshrined in a formal celebration at the U.S. Hockey Hall of Fame Induction Ceremony held in Denver on December 9, 2021. In addition, Lynn Olson (2020) and Jack Barzee (2021) were honored with the Lester Patrick Trophy, presented by the NHL for outstanding service to hockey in the United States.

RAISE THE FLAG CAMPAIGN

Paving the way for our athletes' success at the highest level holds a special place in our hearts. With this goal in mind, The USA Hockey Foundation launched the Raise The Flag campaign in 2019. The campaign provided critical funds to the U.S. Men's, Women's, and Sled National Team programs in preparation for the 2022 Olympic and Paralympic Winter Games and our USA Hockey Arena in Michigan.

Thanks to our generous donors over the past three years, The Foundation raised substantial funds that supported the costs of essential training camps, tournaments, travel, insurance, stipends, and maintaining the USA Hockey Arena.

The campaign's culmination was celebrated during a beautiful summer weekend in Boston at The USA Hockey Foundation's Boston Harbor Cruise and Golf Classic. The weekend kicked off aboard the Music City Queen

Riverboat with 167 hockey supporters to commemorate the campaign, connect with new and old friends, and celebrate our love for the game while enjoying a beautiful Boston Harbor sunset. The Raise The Flag campaign received one final hurrah at the Salem Country Club during the 2022 USA Hockey Foundation Golf Classic. We enjoyed a magnificent day of golf and wonderful dinner together celebrating our 2022 Olympic and Paralympic Teams. Both of these special events were made possible thanks in part to the generosity of Ray and Michelle Jacques and New England Schooner.

We would like to thank the many passionate donors who contributed to the Raise The Flag campaign's success. Your support proves the magnanimity of our hockey community's commitment to our players now and in the future.

CAMPAIGN COMMITTEE MEMBERS

Stan E. Hubbard, chair of the Raise the Flag campaign, led the charge with the following committee members: **Lane MacDonald, Jon Biotti, Merv Lapin, Jack Norqual, Paul George, John Fleming, Dave Ogrea, Pat Kelleher and Tamara Tranter.**

OLYMPIC WINTER GAMES

WITH MERV LAPIN

Merv Lapin, a long-time supporter of USA Hockey and the women's national team program, was the team leader for the 2022 U.S. Olympic Women's Ice Hockey Team in Beijing, China, and USA Hockey benefited from his immense knowledge of the Chinese culture and the Mandarin language. Merv, who is a long-time resident of Vail, Colorado, began visiting China in 1979 and lived there for three years, working for the Jilin Sport Committee. He has made more than 50 trips to China, coaching hockey and setting up youth programs. In addition, from 1985-2022, he has taken over 1,000 youth to play hockey in China, Russia, Czechia, Poland, Finland, Hungary, Sweden, Estonia and Slovakia. Below Merv shares thoughts from his experience at the 2022 Olympic Winter Games.

Being selected as team leader for the Olympics was the thrill of a lifetime, despite the challenges associated with COVID-19.

To enter China for the Games – everyone had to take four pass or fail COVID tests – three before leaving the U.S. and one when you arrived to the Beijing airport. After that, there were required daily tests – the kind where they stick a swab halfway down your throat. Needless to say, it's not the way you looked forward to starting every day for three straight weeks.

Although Beijing was not locked down itself – the Olympics were – with what was called a “closed loop system.” The team and staff were not allowed to go outside of our venue, sleeping/eating quarters or transportation system. No touring, shopping, eating, in Beijing outside of our closed loop. No parents or fans from outside of Beijing were allowed. Because of that, my responsibilities as team leader were a lot less demanding and I mainly helped with translation, food, and transportation issues.

For me it was an exhilarating experience. I had the pleasure to be in and around the best athletes in the world as they chased the dream of Olympic gold. There's nothing like the Olympic Games, even in the midst of a pandemic.

The athletes and a few staff members stayed in the Olympic Village, but there wasn't room for everyone. So along with many other staff members, I stayed in a hotel during the Games. I must say, it was a really nice hotel on the outskirts of the city, and along with staff from our women's and men's Olympic Team, it was also home to the U.S. Olympic and Paralympic Committee staff that was managing the overall U.S. delegation at the Games, as well as staff from a few other countries.

Overall, the Chinese Olympic Committee did a first-class job of organizing and pulling off all the events in excellent facilities. The opening and closing ceremonies were terrific. There were 18,000

volunteers, enthusiastic to help an expected 500,000 spectators, but due to COVID restrictions, the number of fans was greatly reduced.

Over my lifetime, hockey in our country has continued to grow and get better, and today every time one of our teams competes internationally, we're in contention for the gold medal.

It was a privilege to watch both of our teams play and share in their Olympic journey. We have wonderful athletes and staff, and again, there is absolutely nothing like the Olympics. I was honored to play a small role as the team leader for the women's team and am most thankful for the wonderful opportunity.

Planned giving will ensure a consistent, long-term source of funding, and a revenue stream that can help create new, sustain current, and expand programs for many years to come. A planned gift allows donors to support the area of hockey they are most passionate about, after their lifetime, without the concern of gifting assets they may have plans for while they're living. The USA Hockey Foundation is fortunate to work together with individuals who understand the vision and impact of creating and sustaining programs well beyond their lifetimes.

Recently, The USA Hockey Foundation received generous planned gift commitments from two of our very caring and compassionate supporters.

PLANNED GIVING

A LEGACY FOR THE FUTURE

DONNA LOTZER

Donna Lotzer has been a hockey fan for her entire life. She was born into a hockey family and grew up going to University of Wisconsin men's hockey games with her dad, uncles, and cousins. When women's hockey began at Wisconsin, she went to those games too and it was there she decided that she enjoyed the women's enthusiasm and attitude of playing for the sake of the game, most. Her next love for the game began in 2014 when she watched the U.S. Sled Hockey Team defeat the Russians in the Paralympic Games to win a gold medal for the U.S. From there, she was able to witness the sport in person when they came to play in Madison. Donna was blown away with how well the sled team played. Once she discovered there was a U.S. Women's Sled Development Team, her passion and enthusiasm ignited even higher. Upon learning the women are currently a development program, her mission has become helping the program evolve to a National Team that one day has the opportunity to participate in the Paralympics. Her current gifts are made through recurring monthly donations where she simply wants to be able help support these ladies who are inspired to play this sport. Through Donna's compassionate intentions, she has listed The USA Hockey Foundation as the sole beneficiary of an annuity that will provide our women's sled development team important additional resources. Donna hopes sharing her story will provide awareness and inspire others to provide support through making a planned gift.

JIMMY DAWSON

Jimmy Dawson loves the game of hockey and wants to see more people get a chance to play. Jimmy grew up near Chicago and played hockey as a child. He spent time in Texas before later moving his family and business to Pueblo, Colorado, in 2005. He rediscovered his love for hockey at a small rink in downtown Pueblo some 40 years after playing as a kid. To this day he still plays pick-up games at the small local rink, which has since undergone renovations, including new boards, glass and locker rooms, among other upgrades. He also served as an assistant coach on his daughter's 19U Colorado Springs team during the 2016-17 season. "There's a special spot in my heart for girls' hockey," Dawson said. "I love the camaraderie of the players in the room." His daughter's team was a history-making group that still carries significance for Dawson, as the group won the Colorado state championship and also the regional title.

“

***Hockey is such a great sport...
The thrill of skating down the ice,
being with your teammates and
setting up plays. I want more
kids to be able to enjoy that.***

”

That earned Dawson's group a trip to the national championships in Michigan that year. "The biggest joy I ever had was helping to coach those girls to a state championship, and then a regional championship, and then on to nationals," Dawson said. "We watched them emerge as a team and my daughter still plays. Her love for the game has never waned. Once you play hockey, it's in your blood."

Dawson wanted to establish a legacy for years to come, so he helped create The USA Hockey Foundation's Hockey Hispana Fund. The fund was started in 2021 to make the sport of hockey more inclusive for Latina youth hockey players. The USA Hockey Foundation helps facilitate the Hockey Hispana Fund, which provides grant awards to 8U and 10U girls hockey players who are registered with USA Hockey associations in Colorado.

"Hockey is the greatest sport on earth, but it can be pretty expensive, so I wanted to set aside a trust," Dawson said. "It's worth investing in and is a great cause."

The USA Hockey Foundation is fortunate to have legacy donors like Donna Lotzer and Jimmy Dawson who choose to make an impact on our sport for generations to come.

THE USA HOCKEY FOUNDATION BOARD ROOM

The USA Hockey Foundation is excited to introduce three new independent members to its board of directors. Stan E. Hubbard, Ellen Weinberg-Hughes and Bryant McBride offer plenty of talent to The Foundation. While bringing unique backgrounds and perspectives to the table, the three new members of The USA Hockey Foundation Board of Directors share one thing for certain — their undying love for the game.

Stan E. Hubbard is CEO of REELZ, a leading independent cable and satellite general entertainment network. He is also chairman and CEO of Hubbard Media Group, a subsidiary of Hubbard Broadcasting, Inc. A

Minneapolis-St. Paul native, Hubbard played hockey from youth through juniors. He is a University of Minnesota graduate.

“I’ve been involved with hockey my whole life, and certainly all my adult life I’ve tried to give back to the game,” Hubbard said. “This is another opportunity to give back a little more.”

He and his family own and operate the Outpost Ice Arena and the New Mexico Ice Wolves NAHL and NA3HL hockey teams.

“I’m hoping I can bring a little perspective and think I can bring additional business sense [to the Board].”

“It’s really two different views of the hockey world, and I’m hoping I can bring a little perspective and think I can bring additional business sense,” Hubbard said.

Hubbard’s children continue to play hockey. “I have a son playing juniors in the NA3HL, and I have a son that plays sled hockey, and I have a first-year bantam,” he said. “I’m still involved as a pretty active hockey parent, too.”

Ellen Weinberg-Hughes brings significant hockey experience from multiple angles, including as a top-level player, as a coach, through her work in the media, as a consultant, and as a parent of three sons, all high-level hockey players.

Weinberg-Hughes helped the U.S. to the silver medal as an alternate captain on the U.S. Women’s National Team at the 1992 IIHF Women’s World Championship after an outstanding collegiate career at the University of New Hampshire where she helped the Wildcats to three ECAC championships.

While pursuing a graduate degree at UNH, she served as assistant coach for the women’s hockey team and she was also an advisor to the Norway women’s hockey team in 1994.

Weinberg-Hughes then went on to a successful sports broadcasting career that included covering women’s hockey for the CBC at the Olympic Winter Games Nagano 1998.

Weinberg-Hughes is married to Jim Hughes, who played hockey at Providence College and coached in the college and professional ranks. Their three sons are all exceptional players: Quinn is with the Vancouver Canucks; Jack, the No. 1 pick in the 2019 NHL Draft, plays for the New Jersey Devils; and Luke skates with the University of Michigan and was selected fourth overall in the 2021 NHL Draft by the Devils.

“Two generations of my family have benefited from USA Hockey,” Weinberg-Hughes said. “I am honored to join an organization that has accomplished so much and am excited to give back to an organization that has given so much to me and my family.”

Weinberg-Hughes said she hopes to apply her ability to connect with people.

“I think, through this great game, I’ve met so many interesting people from all walks of life,” she said. “I’d like to think that by being part of the Board, I can reach out to them and use my connections to continue to grow this great game and support everybody’s efforts.”

DONOR SPOTLIGHT

The National Hockey League continues to be a transcending partner and supporter of The USA Hockey Foundation. The league's steadfast work in growing and strengthening the grassroots hockey community across the U.S., in conjunction with USA Hockey, continues to be an important priority.

Through the financial commitment made by the NHL each year to The USA Hockey Foundation, coupled with the collaborative initiatives between the league, its member clubs and USA Hockey, the sport continues to grow and attract a wider and more diverse audience in communities across America.

The NHL, along with its teams, encourages and champions the growth of youth hockey and sled hockey throughout the country. Its support has been a direct reflection of the growing number of boys and girls who are picking up sticks and hitting the ice. We thank the NHL for its continued support.

Lightning, Panthers and Wild Helped Our Athletes 'Raise The Flag' in 2022

With the Olympic and Paralympic Games taking place during the 2021-22 season, three NHL clubs further solidified their support of USA Hockey in preparation for the Games. The Florida Panthers, Minnesota Wild and Tampa Bay Lightning each contributed to the 'Raise the Flag' campaign, which provided the necessary support for the U.S. Men's, Women's and Sled National Teams as they prepared and worked towards bringing home gold medals from Beijing.

Minnesota Wild Owner/Governor, Craig Leipold, a champion for USA Hockey, currently sits on The USA Hockey Foundation's Board of Directors.

Bryant McBride said he was excited to join the board and be part of the sport's growth. "I'm very excited about it because there's so much opportunity to be had. The game is evolving," McBride said. "The game is becoming more inclusive

and more diverse, and I'm excited to play a part in that. As much as it is growing, I think there is amazing potential for upside, for further growth," he said. "I'm just so bullish on what this game does for kids and families. To contribute to that a little bit is a real honor."

"I'm all about inclusion. It really matters...We have to make everyone feel welcome."

A successful entrepreneur throughout his career, McBride is currently cofounder and CEO of Burst.com. He became the NHL's first Black executive when he served as the league's vice president of business development from 1991-2000.

McBride helped create the NHL/USA Hockey Diversity Task Force, now known as Hockey is for Everyone. In 2019, he produced the award-winning documentary "Willie" about Willie O'Ree, the NHL's first Black player.

An all-conference hockey player at Trinity College, McBride has maintained close ties to the game. "I hope to bring a lot of experience, a lot of lived experience, first and foremost as a player, now as a [hockey] dad, as an administrator in USA Hockey for many, many years," McBride said, "and as someone who cares deeply about the game, who wants to see the game flourish and get to the next level and include everyone."

"I'm all about inclusion. It really matters. The majority of people in North America by 2044 will be visible minorities. It is our duty to get ahead of that for the growth and well-being of this sport. We have to make everyone feel welcome. It's imperative," McBride said.

GRANT PROGRAM

The USA Hockey Foundation supports numerous efforts each year to help advance programs and initiatives connected with USA Hockey as well as support USA Hockey's Affiliate organizations around the country.

AFFILIATE BLOCK GRANT PROGRAM

The Affiliate Block Grant program was established to return a percentage of the player registration fees back to our local affiliates in order to help them advance the game in their respective areas. The grant funds are used for a wide variety of initiatives, but specifically 25% of the funds are used for growth initiatives and 15% for diversity, equity and inclusion initiatives to positively grow and affect the sport of hockey.
