

Adept Software Partners with TeamSnap.

Escondido California – September 5 – 2013

Adept Software proudly announces our new partnership with TeamSnap - an award winning mobile and web service for managing all levels of recreational and competitive athletic organizations. With enthusiastic customers in 195 countries, and teams representing over 100 different sports and non-sport groups, TeamSnap has quickly become one of the fastest-growing team and group management solutions on the planet.

Rugby clubs using Adeptsoft's Competition Management Software (CMS) are now able to export team rosters and match schedules to TeamSnap, create custom team web sites, track player availability, attendance at practices and games, coordinate refreshments, post messages to Facebook and so much more.

With TeamSnap's mobile app for iPhone and Android, team administrators now have all CMS player and parent contact information at their fingertips. Administrators can choose to send text and emails directly from CMS, or even have the Team Mom send a special update using TeamSnap webpages or mobile app.

"Adeptsoft's CMS is the best rugby club and league management web software available. I am able to post all of our teams, players and schedules to TeamSnap and to my phone, creating huge value in particular for parents of our players. I am sold on using this new tool."

-- William Oeltjen, a coach and administrator with Back Bay Youth Rugby Club, Costa Mesa CA

About Adept Software LLC (www.adeptsoft.com)

Based in Escondido CA, Adept Software LLC provides the most comprehensive web software designed specifically for rugby club and league management; we even feature a club and player registration interface which is fully integrated with USA Rugby's member database.

Adept Software is currently being used by hundreds of rugby teams, including over 15,000 men's and women's club, college, and youth players, administrators, coaches, and referees throughout California, Nevada, Arizona, Oregon, and Washington.
