Expectations if selected for the U15 HUSKIES

- We are offering a highly competitive environment that will provide both discipline and team play that mirrors that of highly developed AAA, Junior and Professional programs. Our mission is to develop good blue collared people with the goal to have success as a team both on and off the ice.
- Attendance will be expected for practices and tournaments.
- Involvement in all fundraising.
- Players will be signing player contracts that will hold them accountable for their actions during the season and they will know what is expected out of each other. This will include how to conduct themselves on and off the ice representing the North.
- We are ultimately teaching the players how to play hockey, but the lessons learned through out the year will translate into life as well.
- Our goal at the end of the season is to have every player be a better hockey player and a better person.
