THE ACADEMY PROGRAM | *Travel Pathway*

The main objective of the Academy is to promote and emphasize the technical abilities of young soccer players as well as create a physical, tactical and social foundation.

WHAT IS THE ACADEMY PROGRAM?

The Academy Program is for players ages 8U, 9U and 10U who are ready to play in a Travel Program. We will play other teams regionally in similar playing level divisions and coached by USSF and NSCAA Licensed coaches.

ACADEMY PHILOSOPHY

The big focus in the Academy programs is that we focus on playing out the back and relying on foot-skills and teammates to get out of pressure. Academy coaches will focus on development now and winning later. Even when others focus on team winning more than an individual child's development, the Academy sticks by the right way and develop the individual. The age to develop the individual and learn is most important in the Academy.

DEVELOPMENT

THE JUNIORS 11v11 PROGRAM | *High School Pathway*

The main objective of the Juniors Program is to promote and develop a higher level of ability, commitment, and interest in soccer to help players through Middle School age prepare for their High School teams.

WHAT IS THE JUNIOR 11v11 PROGRAM?

Ages 13 and 14 are moving to a full field size within the critical development years. The age that we develop an effective Team Player. It is at these ages where the basic fundamental skills of soccer are mastered that allow players to compete and be successful as team players at the next level of play and where they learn the game.
