**DO NOT CREATE A SECOND ACCOUNT IF YOU ALREADY HAVE ONE.** You can enter the email address with the account and click **Forgot your Password?** On the next page if you do not remember your password for the account you created.

If you never had a SportEngine (SE) account then click the **Create Account Button**.

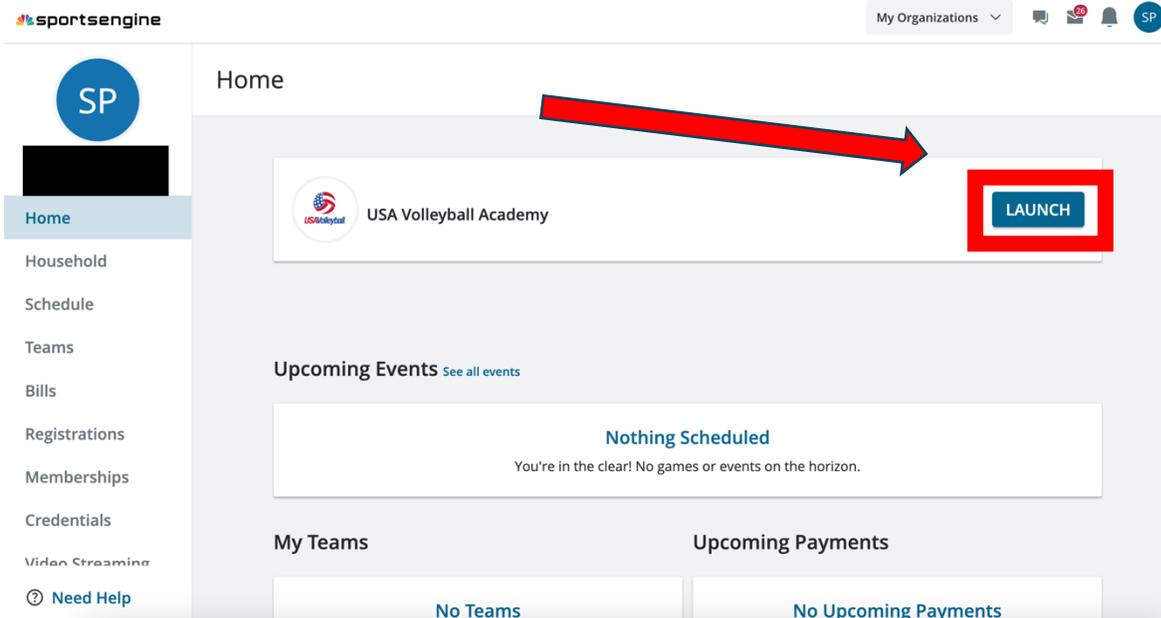

- You may be taken to the SportEngine main page. If so, click **Login** in the upper right hand corner of the screen:

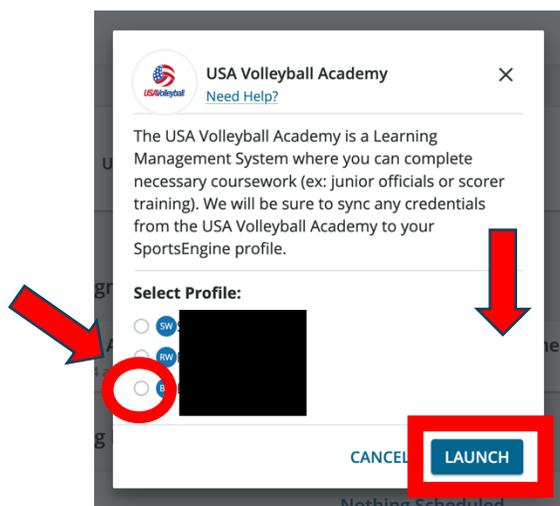

- Then chose to log into SportEngine HQ by clicking the **Login** Button below the Green HQ option on the left-hand side of the screen

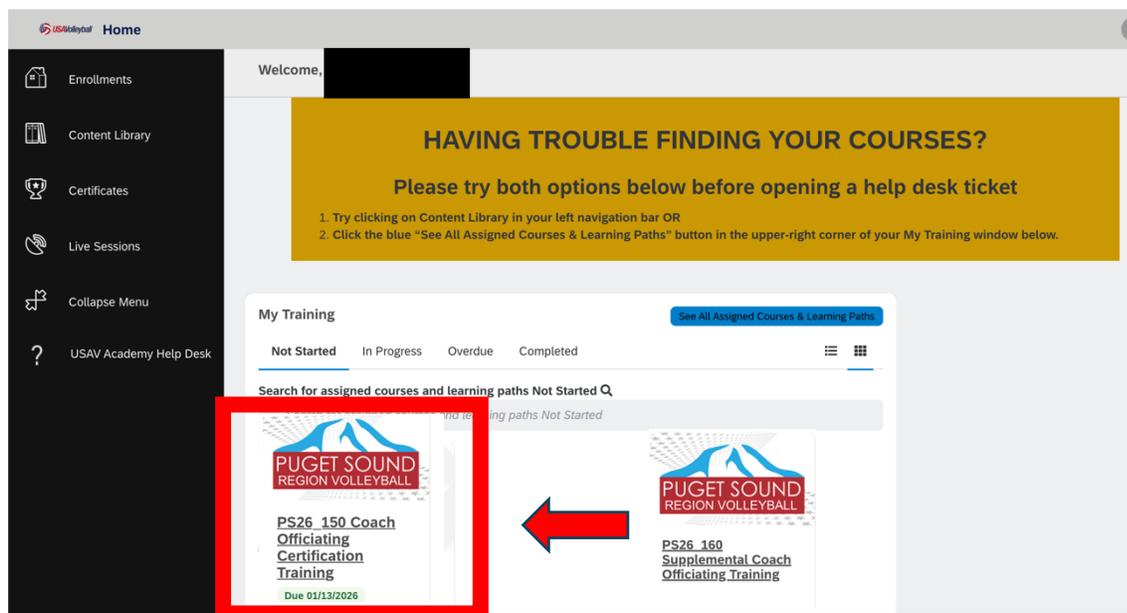

- This will bring you to your Sport Engine Dashboard for this account.
- Click the LAUNCH button on the home screen to open USAV Academy which is where your online coursework is located. (Your name will appear in the redacted in black boxes).

- If you have multiple people on this account (for example you have minors with USAV memberships under your SE account) click on the circle next to the individual you wish to launch USAV Academy for to complete their online requirements.

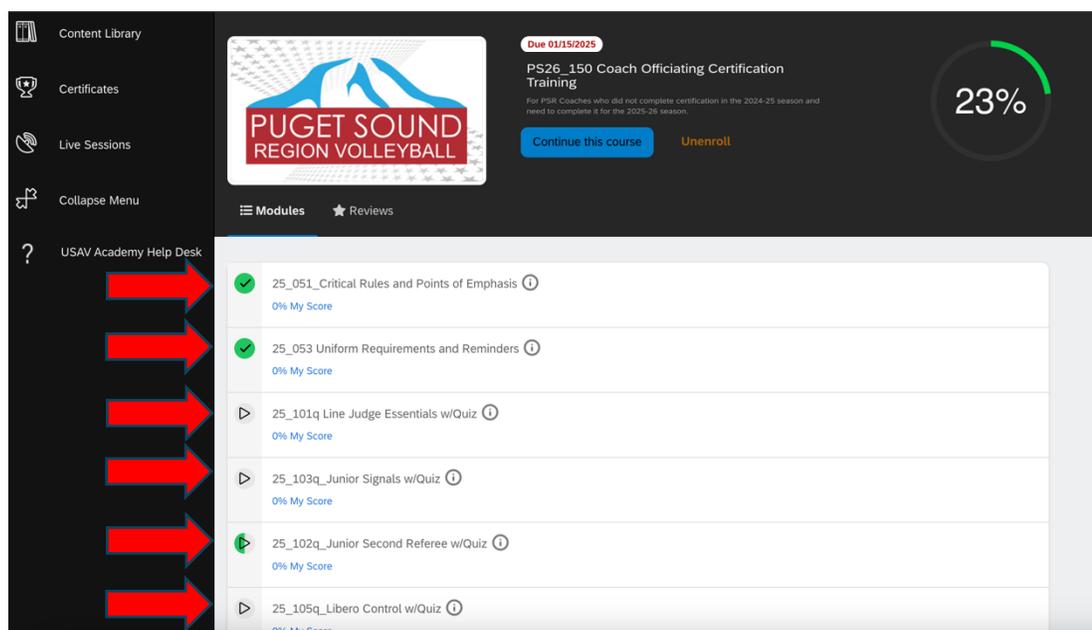

- **USAV Academy will launch. All Coaches should have coursework pre-loaded into their USAV Academy. You can view this coursework by clicking on Content Library on the left-hand side of the menu or clicking the blue “See all Assigned Courses & Learning Paths” Button.**

- **Click on the course you need to complete. The two numbers following PS change from year to year and are related to the year of the current club season. For 2026, Coaches Courses are named:**
  - PS26\_150 PSR Coach Officiating Certification
  - PS26\_160 Supplemental Coach Officiating Training

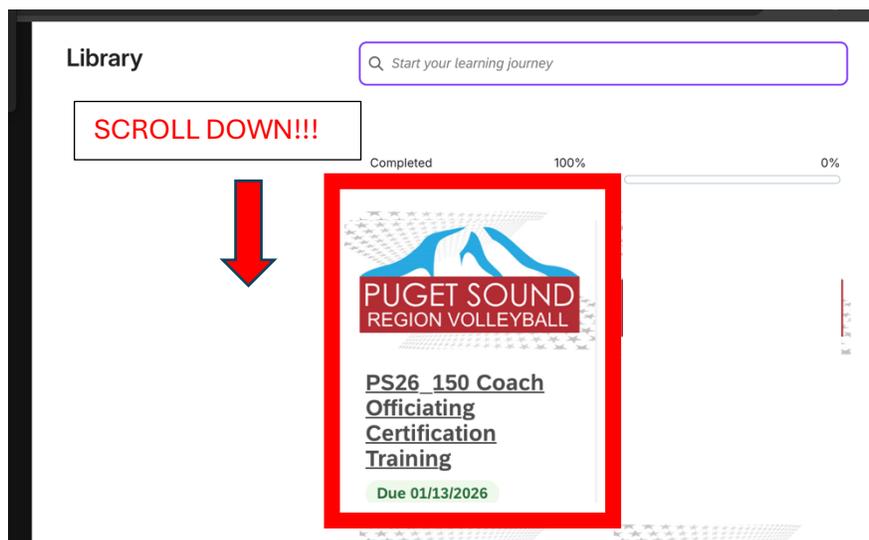

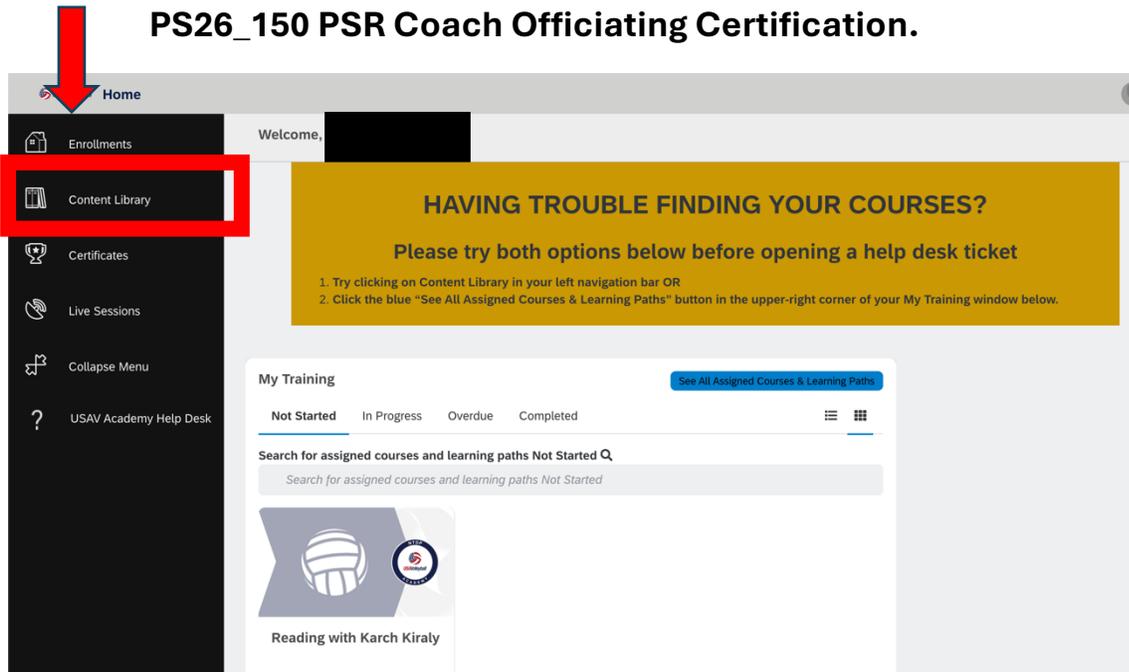

If you completed the Coaching certification last season (PS25\_150 PSR Coach Officiating Certification) you do not need to complete this year’s PS26\_150 certification. You will have the OPTION of completing PS26\_160 which is a supplemental course that has the modules about Critical Rules and Points of Emphasis for the 2026 season, Uniform reminders and requirements, and the HIROS training that some qualifiers now require coaches to complete as well.

- Once open, your coursework will have all the modules loaded for you that you need to complete. **YOU NEED TO COMPLETE ALL MODULES.** Modules can be started and resumed at a later date or time. Each module needs to be completed to **100%**. You cannot minimize the tab open once the module begins or it will pause. Each slide of the module needs to be advanced by hitting the next button. Once completed, the module will have a red exit button show on the last slide and once you click the exit button a green circle will show next to the module. Modules with a name “q” after them (e.g. 105q\_Libero Control with Quiz) will allow you to test out of completing the actual module by getting a passing score on the quiz ahead of the module. Modules that have been started but not complete will have a half a green circle shown over it. Once every module is complete the percentage at the top will show 100% and an optional certificate can be downloaded for proof of your completion by clicking on Certifications on menu on the left side of the screen.

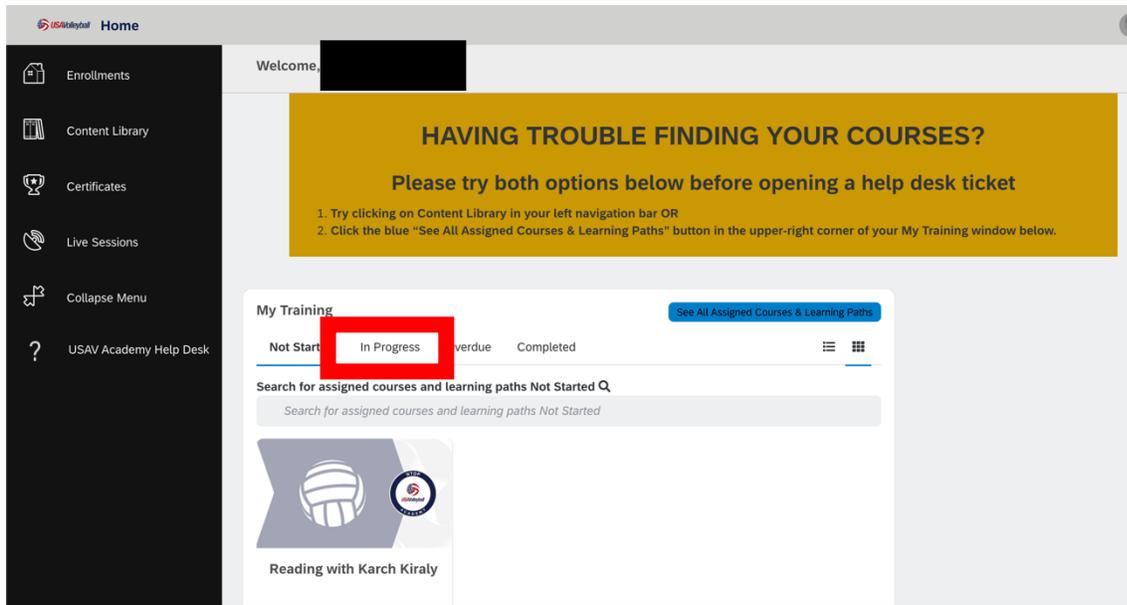

# TROUBLESHOOTING

- If it is not pre-loaded make sure you have a full 2025-26 PSR Adult Coach of a Juniors USAV membership in Sport Engine.
- If you are having troubles viewing, loading, or advancing the slides on the modules please move to a computer or tablet with a large screen. Try changing browsers. Try clearing your cache.
- If it is not pre-loaded on the home page you can additionally view this coursework by clicking on Content Library on the left-hand side of the menu and scrolling through the library until you find PS26\_150 PSR Coach Officiating Certification.

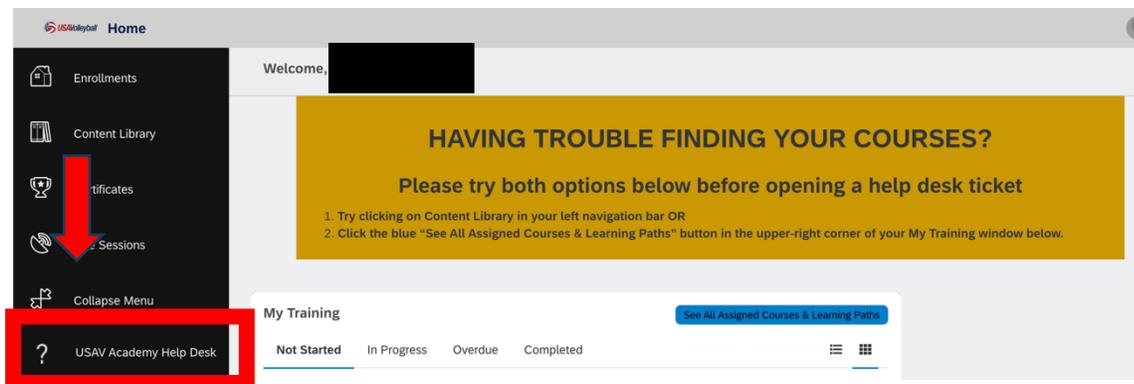

- Additionally, if you have already started coursework and are returning and you don't see your coursework on your home screen, click on the "In Progress" tab to the of the blue button to access the coursework from the home page of USAV Academy.

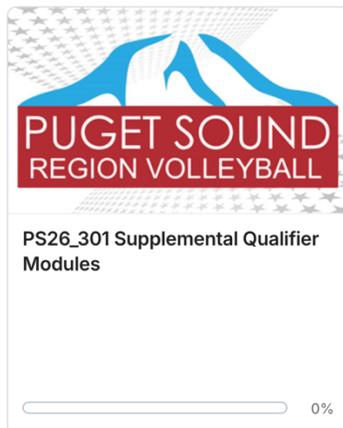

- Lastly, if you still do not believe content has been uploaded into your athlete's account **DOUBLE and TRIPLE** check you are using the **correct Sports Engine login** you have your membership under this year. Many problems are because multiple accounts have been created.

If you are **STILL** having trouble and need help, visit the **USAV Academy Help Desk**.

## NEW OPTIONAL QUALIFIER MODULE

- For 2026 we have included another optional module “PS26\_301 Supplemental Qualifier Modules” for those coaches that likely may attend a qualifier who would like to watch modules specific for this purpose
- This OPTIONAL module can be found by following the troubleshooting guide directions of going to your Content Library and scrolling down until you find PS26\_301

- This includes training on ELECTRONIC SCORING with VOLLEYSTATION that is used at all USAV owned events (SLC Showdown, Sunshine Classic, West Coast Qualifier, and all club and national championships) and other national qualifiers as well. This module is named “US26\_603 VolleyStation User Guide”
- It also includes the HIROS training many qualifiers now ask you to complete as well.
- Additional links to VolleyStation user guide and training can also be found here to give out to players:
  - <https://www.youtube.com/playlist?list=PL-R0elroVfS4nJqxYquiTeSbJRP1g-gEf>
  - <https://docs.google.com/presentation/d/1SGbLvAjp8fRCssS4mRXbuniBTQYTOBo4EuRwvkKV8DY/edit?slide=id.p1#slide=id.p1>
- *Please note, we will NOT use VolleyStation in region.* This is specific for select Qualifiers and championships. And even where VolleyStation is used you are often times still doing the paper scoresheet as backup in many places (but not libero tracking as VolleyStation does this for you).
