IDEA CORNER

THE DIME Challenge

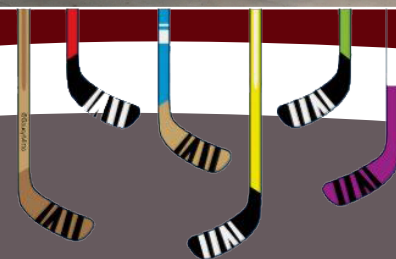

One 16oz bottle filled with dimes adds up to **\$100**
Challenge your player to start collecting for the rink.

An inside peek...

January 2020

Second level mezzanine area

Built in 2000, the current arena was an empty shell for two years before enough money was raised to finish the interior. Even then, only practices were able to be held until the locker rooms and bathrooms were installed. Both BYH & BHS were finally able to host games starting the 2008/09 season, the same year the beautiful lobby, concession area and gorgeous front entrance was constructed. The upper level mezzanine was enclosed and completed in 2012 giving spectators a warm, comfortable place to view games. The BCA is a beautiful, one-of-a-kind arena.

Finishing & opening the second rink can only occur with significant financial assistance from the BYHA membership.
