2021 Class A State Champions *Season Record 21-0*

Reflection -

The 2020-2021 Mirage hockey season was one for the record books. To win a State Championship is something many strive for yet never achieve, and it is a title that our program will cherish for years to come. In it's simplest form, the definition of champions is that of a person or team who has defeated all rivals in a specific competition. However, to me, the word champion reflects more than its basic definition. It reflects the hard work and resiliency of the players who never gave up. It reflects the knowledge and leadership of the coaches who helped push the players to believe in

themselves and in the team. It reflects the dedication and contributions of the volunteers, sponsors, parents, and supporters who have always believed in the program. Most importantly, it reflects the journey of all who have been involved with the Mirage program since it's conception in 1998-99. There is nothing sweeter than winning your very first State Championship as a program, and I'm so grateful to have had the opportunity to be part of it and play a role in that success.
