

EAA / ESC Merger – Member Letter / Email

10.29.2019

Hello ~

The Elkhorn Athletic Association and the Elkhorn Soccer Club have deep community roots spanning four decades. Both organizations have demonstrated history and shared missions of providing young athletes and their families an enjoyable and constructive youth sports experience, which emphasizes sportsmanship, personal development and leadership.

These two organizations have taken a step to grow even stronger together by merging under the Elkhorn Athletic Association (EAA) umbrella. We are beyond excited for this partnership to occur and it will combine knowledgeable, experienced, and passionate people who want to provide our kids with excellent athletic opportunities that develop them to be the best individuals they can be both on and off the field.

After careful study, the merger includes plans to develop a multi-sport outdoor community complex. The state-of-the-art complex will encompass a signature destination facility for outdoor youth athletics and community recreation. The combined organization will own and operate the complex, which will be largely privately funded and provide economic growth opportunities for the region.

Initially, the complex will offer turfed baseball, softball, and soccer fields, as well as football fields, with additional fields such as lacrosse added in future years. We envision the complex as a signature destination facility for youth sports and community recreation.

Our organizations believe the merger of these two local youth sports organizations and the construction of this outdoor complex will significantly enhance our community and be a special place for youth sports in our area and the region.

Thank you,

Jason McDonald
EAA Chairman

Bruce O'Neel
EAA Executive Director
