

## Scoring Games in the SportsEngine App

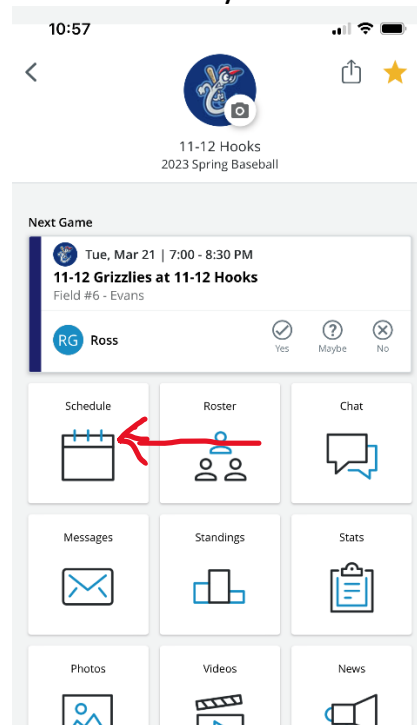

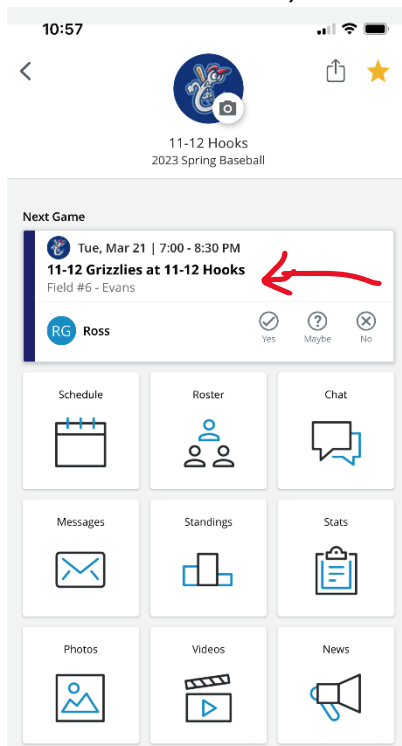

### 1. Open the App

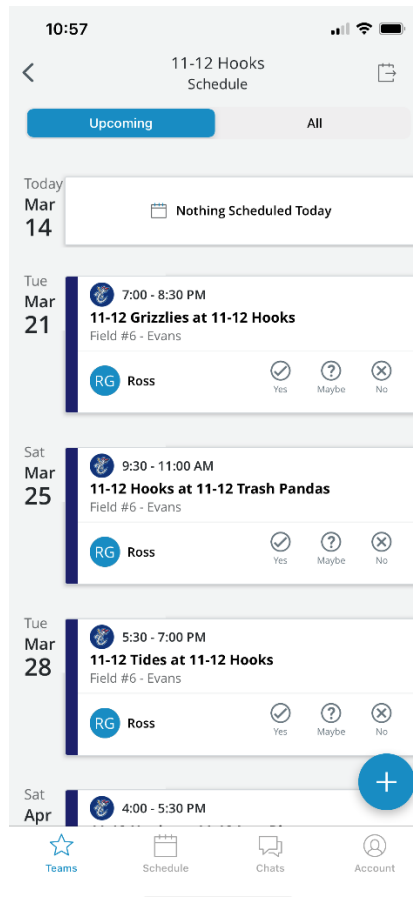

Make sure you are logged into your account, and that it is the same one you registered to coach with

You will see a list of 1 or more teams. Only Active teams should be shown for each season, so teams you have previously coached will not show up:

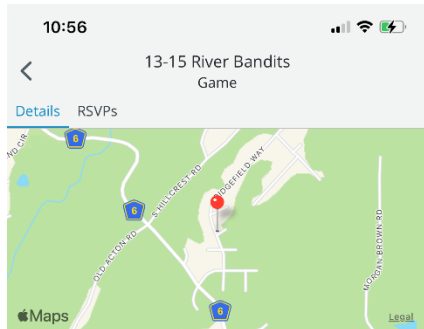

### 2. If you are scoring a game that just finished, it should show up once you click on the team, otherwise click the calendar icon that says "Schedule"

3. If you went to the schedule page, choose the correct game from the list:

4. Once you have chosen the correct game to score, the information for that game will appear. Click on the pencil icon at the bottom right. Choose score game from the list that appears:

6:00 PM  
Today, March 1, 2023

### 13-15 Hooks at 13-15 River Bandits

Location

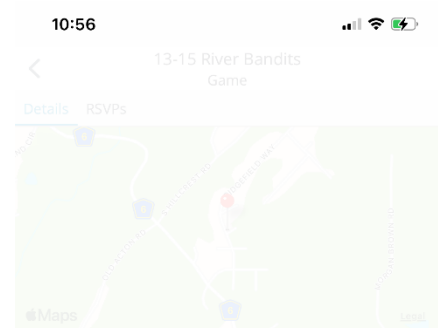

Field 5 (Sullivan)

**RG** Ross Grimes

Yes  Maybe  No

Score Game

Teams Schedule Chats Account

5. Enter the score for each team. At the top, where it says "In Progress," make sure to scroll down to "Final", then click on "Save"

6. When you finish and hit “Save,” you should return to the game info screen and get a message that the game was scored successfully (picture on left below). Also, in the schedule for the team, the score will show up on the right for games that have been scored (picture on right below)
