

## **2022 GIRLS DISTRICT-SPECIFIC PLAYER DEVELOPMENT GUIDE**

## USA Hockey Girls Player Development District-Specific Guide

The USA Hockey Girls Player Development District-Specific Guide outlines the 2022 girls player development process in each of the twelve districts. This guide provides information on the opportunities available in each district and shows how a player may progress through her district's player development process to be eligible for opportunities at the district, regional, and/or national level. At a national level, girls from the 2005, 2006, and 2007 birth years, who are U.S. citizens and complete the district tryout process, will be eligible for potential advancement to one of the following age-specific Girls National Player Development Camps:

<b>Girls 15 Player Development Camp</b> <i>(July 9-14, 2022)</i>	<b>Girls 16/17 Player Development Camp</b> <i>(June 25-July 1, 2022)</i>	<b>Girls U18 Select Player Development Camp</b> <i>(July 15-21, 2022)</i>
<b>216 players</b> Each district receives allocated spots for the 2006 birth year generated by registered female players in each district.	<b>144 players</b> Each district receives one forward and one defense spot for 2004 birth year. Each district receives allocated spots for 2005 birth year generated by the prior performance of that districts' specific birth year. Goalie spots are considered "at large."	<b>76 players</b> There are no set allocations for this camp. The USA Hockey National Team Staff and Tryout Directors in each District will collectively determine who is selected for this camp from the 2004, 2005, and 2006 birth years.

Players may also be eligible for opportunities at the district and regional level. Most opportunities focus on the 14 to 17 year old age range (2005-2008 birth years); however, additional developmental opportunities may be available in some districts for the 2004, 2009, and 2010 birth years. These opportunities will vary in each district and are included in each districts' player development process in this guide. For more information, please contact the Girls'/Women's Section Representative in your district.

Because each district is responsible for designing its girls' player development process, it may vary from district to district (i.e. birth years included, location of tryouts, regional opportunities, etc.). Because the districts are not all identical, the size of a district, the number of girls registered in that district, and the geographical proximity of the registrants in the district are a few of the factors that influence a districts' player development process.

For more information on the 2022 Girls National Player Development process, please read the [2022 Girls U18 National Player Development Guide](#).

*Note: This information is specific to the 2022 player development process and the process, dates, locations, format, cost, number of players, etc. may vary from year to year. Additionally, the 16 and 17 year olds (2005/2006 birth years) are combined in the district-specific progressions, but these birth years are evaluated separately and have distinct, birth-year specific player allocations for district, regional, and national opportunities.*
