B Team (or at some levels a C team) will exist if enough players have signed up and there is an identified head coach. At all levels coaches may possibly work together to identify opportunities to move players between A & B teams for player development or to fill vacation / injury gaps. Schedules will be determined and communicated to parents as early as possible for summer planning needs. If there are not enough players to field a full 2nd team, it will be at head coach & NBI Board discretion / collaboration on how to ensure we provide the best experience for the players including but not limited to rotating players between different tournaments (including more total tournaments than typical) and combining levels.
