

GOHS XC Prehab and Strength Routines

2 graduating GOHS XC runners helped to make videos of the prehab and strength routines we use most often in the GOHS XC program. This will make it easier for newer runners to use the routines on their own and become familiar with them outside of team practices. The descriptions are brief. Watching the short videos will be the most helpful.

Routine	Instructions	Link
<p>Balance</p>	<p>Do 3 sets of this routine. To make the routine more challenging, increase the time segments slightly each week.</p> <p><u>Standing Alphabet</u> -Stand with hips balanced (one not higher than the other) and “write” all the letters of the alphabet with one straight leg/foot. Do the same with the other leg.</p> <p><u>One Foot with Knee Bent</u> -Stand with hips balanced and one knee held at 90 degrees. Balance for 15 seconds. Switch to other leg. -Then cover one eye and balance for 15 seconds. Switch to other leg. -Cover the other eye and balance for 15 seconds. Switch to other leg. -Close both eyes and balance for 15 seconds. Switch to other leg.</p> <p><u>Front Scale</u> -Lean forward on one leg while holding the other leg up behind you and balance for 15 seconds. Both hands are held like “uprights”. Switch to other leg.</p> <p><u>Side Scale</u> -Lean to the side on one leg while holding the other leg out to the side and balance for 15 seconds. Both hands are held like “uprights”. Switch to other leg.</p> <p><u>Back Scale</u> Lean back on one leg while holding the other leg straight in front of you and balance for 15 seconds. Both hands are held like “uprights”. Switch to other leg.</p> <p><u>Runners Form</u> -Stand on one leg and pull the other knee up to 90 degrees. Foot should move up, around, and down in good running form. Do 10 repetitions, gradually speeding up. Switch to other leg.</p>	<p>https://drive.google.com/file/d/1Tvxdis9hA6WBBpEA554Vk6izTjBZ70UU/view?usp=sharing</p>
<p>Sand</p>	<p>Do 3 sets of this routine. To make the routine more challenging, increase the number of repetitions across the sand.</p> <p>This routine is used in sand, so it will not be completely clear what is happening from the video. We will use this routine as a group to prepare for surfaces, like sand or mud, which aren't as stable. **This routine is done without shoes!!</p> <p><u>Stationary Jumps</u> -Standing jumps with both legs and then with each leg separately. -10 jumps in each position</p> <p><u>Toe Walks:</u> Walk across the sand on your toes. <u>Heel Walks:</u> Walk across the sand on your heels. <u>Walk Forward - Feet Out:</u> Walk across the sand with your feet pointed outward. <u>Walk Forward - Feet In:</u> Walk across the sand with your feet pointed inward. <u>Walk Forward - Ankles Rolled Out:</u> Walk across the sand with your ankles rolled outward. <u>Walk Forward - Ankles Rolled In:</u> Walk across the sand with your ankles rolled inward. <u>Foot Crawls:</u> Scoot across the sand with both feet staying together and in the sand.</p>	<p>https://drive.google.com/file/d/12-W3CBVgedyY6M0mI3D_Bw6BccIM9nat/view?usp=sharing</p>
