

Attendance Policy

It is essential that players attend practices. It is understood that players will be sick or have a family event they need to attend. Please notify the coach when your player is not able to make practice or a game. In the event a player has missed 2 or more practices, the coach will contact the guardian and notify them that if the player misses practice again, playing time will be reduced. Also, if a player is chronically late, the coach may also reach out to the family and reduce playing time if it happens again.
