# www.nbikefootball.org
Basic User Guide

This is a basic user guide to help users get the most out of the new Eisenhower Football Booster Club website (nbikefootball.org). This is not meant to be a comprehensive guide to all functionality, so if you have specific questions, or would like to suggest additional functionality, please contact the Webmaster by using the link on the front page. We hope you enjoy the new website, and find that it is a valuable resource for you in getting involved with IKE Football.

Navigation

EISENHOWER	New Berlin Eisenhower Football Booster Club					Page Search	Search
LET'S GO IKE!!!	Home	Our Teams	Calendar	Information	Pride	Events	Support

There are numerous ways to navigate through the site, but the easiest is probably the navigation bar across the top of each page (pictured above). In the table below we will attempt to summarize each navigation header.

Tab	Sub-Menu	Purpose
Home	- None	This is the front page of the website, and contains a number of items of interest including a schedule ribbon, upcoming events, a news article aggregator, a picture gallery, and widgets for our Facebook and Twitter accounts as well as the weather! Our contact info is also at the bottom.
Our Teams	- Varsity - VR - JV	These team-specific home pages have team-specific information on them including the game schedule, next 5 days schedule, upcoming events and team-specific news.
	- WSN IKE Football Page	We were able to integrate the WisSports.net page for IKE Football directly into our site. This is where you can see the standings and stats for the Varsity team.
Calendar	- Determined by the tags applied at the bottom of the page	We believe that this integrated calendar will be one of the most valuable aspects of the new website. Because we have so much information, it can be overwhelming… so we have provided "tags" for items to allow you to filter what you see. More detailed information can be found on page 2.
Information	- Our Booster Club	Contact info for all officers and class representatives.
	- Our Sponsors	Info for our key sponsors. Thank them with your business!
	- Social Media	Integrated widgets for Facebook and Twitter.
	- Venues	Addresses for all fields our teams play on. Clicking on facility names will take you to a Google Maps page with the facility indicated.
Pride	- History	Season-by-season summary of won/loss record and playoff performance.
	- Trophy Case	Summary of team accomplishments and all-time team and individual records.
Events	- None	This page will be the go-to location for information on our major events (trivia night, golf outing, tailgate, etc.).
Support	- Volunteer	Here you can find links to the volunteer sign-ups.
	- Donate	This links to our Square marketplace allowing for folks to donate to the program using their credit card.

The following page will discuss the Calendar page in more detail, and introduce the mobile applications for each team.

Basic User Guide

Page-Specific Guidance for "Calendar"

At the bottom of the calendar you will see a button that says "Show Tag Menu". If you click on this button, you will see a tag "tree" that looks something like this (items may or may not be checked by default):

The content of the calendar is driven by the tags selected. Tag definitions are as follows:
- Our Teams (2018): Selecting this will put ALL GAMES (Varsity, VR, and JV) on the calendar.
- Varsity: Selecting this tag will put ALL VARSITY TEAM ACTIVITIES on the calendar. This includes practices, games, weight lifting, etc.
- VR: Same as Varsity, but for the Varsity Reserve team activities.
- JV: Same as Varsity, but for the Junior Varsity team activities.
- Events: These are Booster Club items including meetings, fundraisers, etc.

You may select as many or as few of the tags as you want in order to get the calendar that works for you. At that point you can print it, or even subscribe to it as an RSS or iCal feed.

Mobile Apps

The website utilizes responsive design, so it does work on mobile devices… but if you prefer, you can set up app shortcuts on your phone and/or tablet for any/all teams. The "download app" is the SportsEngine app which is available for free in the Google Play Store or Apple App Store.
