Youngstedts Donates Van to DinoMights, Keeping Programming Rolling in Minneapolis

TEXT BY **JOSH HUISKEN** PHOTOGRAPHY/DESIGN BY **JOSH HUISKEN**

In order for DinoMights to continue serving our community, reliable transportation is essential. Many of our families face challenges getting their kids to programs, some have limited access to vehicles, while others work long, demanding hours that overlap with DinoMights activities.

With so many opportunities for youth, such as academic tutoring, hockey practices, special events, and camps, DinoMights relies on vans to operate effectively. When one of those vans was recently brought to Youngstedts for major repairs, Youngstedts decided to step in in a major way.

Thankfully, Youngstedts generously donated a 13-passenger Sprinter van complete with a beautiful DinoMights logo decal. This new van has already been put to great use, transporting our Mites to hockey practice and our elementary students to tutoring on Tuesdays.

Additional improvements to our fleet of vans are coming, and still needed. We are incredibly grateful to everyone at Youngstedts who made this donation possible. Your support goes a long way helping ensure

that DinoMights can continue serving hundreds of kids and families across our community.
