

CLUB DIRECTORS' UPDATES – 12/8/2021

- Officiating training should be getting loaded into members' USAV Academy accounts when memberships are purchased or upgraded. To learn how to access the training, visit www.cevaregion.org/refscore. This website also outlines requirements for each roster. We are not worried if these requirements aren't complete by the Kickoff Tournaments.
- Please note the requirement to have an adult at the scoretable for 12s. This adult can be a chaperone, another coach, etc. The individual cannot be serving as the R2, and must have a membership, background screen, and Safesport. They must also be on your roster.
- If you have not submitted your [Club Coversheet](#), please do so as soon as you can.
- Invoices for Power League & Team Fees will be sent toward the end of this month. Read more information about how we bill clubs at www.cevaregion.org/invoicing.
- Once your teams are formed, start building your rosters in SportsEngine. This can be a convoluted process, so we encourage you to start early. Our office will assist however possible. See www.cevaregion.org/se-mms for help materials. If you see a red triangle next to a name, it means there's an issue and they won't appear on a roster. Delete the name and try to re-add them. Make sure you're adding the name connected to a USAV membership number (7-digit number).
- Please remind your players to upgrade their memberships to full-season memberships if they haven't already. This can be done by visiting www.cevaregion.org/membership and walking through the purchase process again. Cost of tryout memberships are automatically applied to the upgrades. The receipt will show two charges – one to CEVA, one to USAV – that is normal, and the previous payments will still apply.
- We are making one more push for coaches for our Winter Term after-school clinic series in Portland. More information can be found at www.cevaregion.org/sei.
- As a reminder, we have information on our website about upcoming Board & committee vacancies, for those interested in serving. Visit www.cevaregion.org/join.

Regionals

Registration for Regionals is open on our website – www.cevaregion.org/regionals. Please ensure you're familiar with current entry guidelines at the Expo Center. They can be [found here](#). As we are still in a fluid situation, requirements may change between now and the tournament. We will communicate changes as efficiently as possible. Should these requirements remain in place when we host Regionals, you can anticipate being able to submit documentation ahead of time, or a check-in process to happen on Friday night prior to the events. More information will be communicated by our office as it is available. Questions on this specific policy may be directed to cody@cevaregion.org.
