

NBI Game / Practice Weather Cancellation Policy:

Neenah Baseball Inc. will make a game/practice day field evaluation by 3 pm. If a cancellation is required league-wide, it will be posted immediately on our website homepage, emailed to league coordinators, passed along to coaches, and posted on Facebook.

After 3pm – The evaluations of the fields and/or safety environment for the players becomes the coach's responsibility. The coaches must agree to not start or stop the game, if an agreement can not be settled contact your league coordinator immediately.

If at any time a coach determines the field or conditions are unsafe for players (even if the league has given the go-ahead to play), they have a responsibility to contact the opposing team coach and if in agreement, cancel and notify their teams.

At any time, you **must suspend play if lightning occurs**, you are not allowed to play within a **1/2 hour** if lightning has been witnessed. No exceptions will be tolerated.

SAFETY is our #1 concern; FIELDS are our #2 concern and we don't want to sacrifice either to try to get a practice or game in. Reworking a field that has been used during wet conditions is difficult to fix, coaches will be responsible for this.
