

For games/practices at the Oval, here are their current guidelines

We will also need help if you are scheduling the teams to pass along the Oval is a bit more strict with COVID restrictions:

- Everyone will be temperature checked when entering the building
- Masks must be worn in all public areas (players must wear masks in and to the locker rooms, when heading to the ice they can leave it in the locker room)
- Spectators must wear a mask at all times
- We will need the team to keep a log of who is on the ice that can be requested and reviewed by Ova staff (this is for contact tracing if needed)
- Currently we are giving two locker rooms per team (this may change)
- Water fountains are limited (each player should have their own water)
- For practices teams are allowed in 30 minutes prior and must leave 30 minutes after (we will need to discuss pre and post-game times)
