

Montana Beef Council

Announcer's Copy

Please make the following announcement(s) once during each session:

Beef is the Preferred Protein of the Montana High School Association, thanks to their partnership with the Montana Beef Council. Beef provides fuel for the finish so you can always play at your best. Along with being delicious, beef contains important nutrients. In just one serving, you're getting 10 essential nutrients including protein, iron, zinc, and B vitamins. Thank you to Montana beef producers for raising the stakes on nutrition.
