

The Chicagoland Youth Football League – One Team, One Family

July 14, 2020

To all TCYFL Member Communities,

As we all continue to face such unprecedented and uncertain times that directly impact the lives of all TCYFL participants and their families, we at TCYFL are faced with a very difficult decision as it relates to the Health & Safety of our players, coaches and families. Our passion for the game of football is unwavering, but the ongoing Health & Safety of our football family outweighs all other aspects of the game.

We are extremely mindful of the enormous benefits that children derive from the coaching, team play and physical activity provided by youth sports and its importance to the physical, social and psychological development of the many participants, but all of this must be secondary to their health and safety.

Based on the most up-to-date medical information of the IDPH, the CDC and the most recent revisions to the guidelines of the IHSA; We, as the TCYFL Executive Board, have made the unanimous decision to suspend the 2020 season of the TCYFL.

This decision was made after many thoughtful meetings, conversations, consultations and discussions with our Member Communities that have taken place over the past several weeks. It is also a stark reminder of the impact that this global virus continues to bestow upon all of us across the World.

As circumstances change into a more positive direction, we will revisit this decision to determine whether a Spring season will be possible for all our participants.

We wish you all to stay safe and healthy.

TCYFL Executive Board
