NEWS LETTER

FC Europa
Director of Soccer,
Barry Davey

February 24th 2021

After one of the crazier winter soccer seasons I can remember, I am sure we are all eager to wave goodbye (please) to all the snow, and hopefully to the worst of the pandemic restrictions.

Again our players and parents have shown remarkable flexibility and resilience to navigate the new rules and schedule tweaks to allow the game to continue to be played. I have heard the expression 'we're just happy to be out there' more over the last few months than the previous decade, and with the novelty apprehension diminished, players are now playing as if the masks aren't there.

Turf Cup This Weekend!

The spring season kicks off this weekend with our own annual FC Europa Turf Cup for the boys and showcase teams, with the girls taking their turn the following week.

While this is restricted to only in-state teams this year, it remains a very strong tournament that serves as great preparation for State Cup and spring leagues. **Good luck to all of our teams at these and other events!**

New Summer Program!

In response to substantial demand from our families, we will for the first time this year arrange a brand new **'Summer Select' program**.

Look out for registration details which will be posted shortly on the FC Europa website and social media pages for this five-week, two-tournament offering.

2021 Tryouts

Tryout registrations are now open!

Keeping in line with the EPYSA guidelines, there will be no tryouts held before the beginning of May.

As a club we have been at the forefront of this commonsense initiative to end the constant bringing forward of dates in order to be first. With Covid restrictions likely to be less onerous this year, we look forward to holding more traditional tryouts than were possible a year ago.
