

BFA Covid-19 Guidelines

In accordance with guidance from Minnesota Department of Health (MDH), BFA will practice the following guidelines at summer development clinics:

- 6 foot social distancing between players
- Encouraged health etiquette norms, including use of face masks (these are not required and will not be provided)
- Enforce stay-at-home if you are sick policy
- Encourage use of personal equipment only
- Provide hand sanitizer and wipes to be used as needed and whenever equipment is shared
- Players will remain in consistent pods of no more than 25
 - Groups will remain intact and travel together
- Safe Sport compliance for coaches
- Contactless play, per current MDH recommendation
 - This may change as guidelines evolve

** We encourage parents to drop off players and not stay at clinics. If a parent chooses to stay, we ask that they practice social distancing guidelines and encourage the use of a face mask.
