

Alex Lemon Bio

My name is Alex Lemon, and I am interested in joining the MYHA board to help maximize the fun, development, and continual improvement of MYHA players and teams. I bring a wealth of hockey experience from many different associations as I played across North America through high school and into college.

I have a strong background in operational and people management in my career as a healthcare administrator. I have coached mites in Mahtomedi for the last three seasons and was the head coach for mini-mites and co-head coach for mite 2 in the 2023-24 season. I believe all of these experiences give me a great foundation to help lead MYHA with the other board members. At the end of the day, I am someone that is all about the kids having fun while growing as hockey players, teams, and individuals.

Thank you,

Alex Lemon
