

2020-2021 Girls' Season

2020-2021 season

This season will no doubt be different for many of us.

We have been working hard and planning for the upcoming season. We have engaged with SCVA leadership and club directors from other prominent club programs to determine how best to navigate the

current season. There are many changes coming, some unrelated to the COVID pandemic. *What remains constant is our commitment to provide you the best, most knowledgeable coaching staff in Las Vegas. Now, more than any other season, is the time to trust in the proven experience and success offered at Vegas United Volleyball Club.*

USA Volleyball membership

USA Volleyball has changed the registration process for individuals and clubs.

Individuals will now register themselves within the Sports Engine platform for USAV membership. This season there will be a required **\$20.00 Tryout Membership that can be updated to a Full Membership** by paying the remaining balance of membership fees. The registration links will be posted to the SCVA website. There are further steps after commitment to our program so an athlete will become affiliated with the club program of their choosing.

1

TRYOUT MEMBERSHIP

USAV has changed how membership is managed. Each person will register themselves prior to tryout.

2

REGISTER

Register for the tryout on our website. Tryout will be held on Saturday, September 19.

3

JOIN US!

Accept our invitation to join our program & begin practicing the week of October 12, 2020.

Girls' schedule

is still under planning. State regulations & guidelines have made planning events in 2020 unlikely. We are actively working with the SCVA to plan events in Jan - June 2021.

Girls' HS season is

currently planned 02/20/21 - 04/10/21. Athletes will be allowed to participate in both HS and Club concurrently this season.

Utah Girls' VBA

We will play a combined schedule this season in UT & CA.

Further, our participation in events in Utah means each athlete and coach will have to register with AAU, too. This is a

low cost membership and the process should be fairly simple.

We will be certain to share the links and instructions as they become available.

VUVC Tuition

We are revising our tuition for the 2020-2021 season to ensure families are only paying for what we can guarantee.

Tuition for the upcoming season will essentially comprise of three parts.

- **Training**

- Teams training 3x's per week - \$325/month
- Teams training 2x's per week - \$200/month

- **Uniforms**

- We have worked with Ren Athletics to minimize costs for apparel this season. Each bundle will have numbered practice tees, two uniform tops and one pair of shorts.
- Sweat tops, bottoms, and backpacks are purposefully designed to be the same as last season to reduce cost for families.
- Practice tees will be required this season as we are investing in new technology to assist our athletes in their development and recruiting processes.
- We will share the cost as soon as it is determined.

- **Events**

- Athletes accepting to join our travel teams agree to participate in the events selected by the club.
- Costs will be published for each event and the athletes will be responsible to pay their percentage of the cost to attend. *Athletes will need to register with AAU independently.*

"But the fact of the matter is, is if you want to be good, you really don't have a lot of choices, because it takes what it takes. You have to do what you have to do to be successful. So you have to make choices and decisions to have the discipline and focus to the process of what you need to do to accomplish your goals."

- Nick Saban

HOW WILL TRAVEL WORK THIS SEASON?

Perhaps the greatest "new" will be how we travel to events this season. We LOVE traveling together and spending time with our athletes and families. We have to create a new safe, best practice for this season.

Athletes will be required to travel with their parent/guardian or an adult designee of their parent/guardian to events. Athletes will be required to stay in lodging with their parent/guardian. Coaches will provide meeting times, locations and clear expectations of athlete behavior. We are trusting the athletes will manage rest and nutrition responsibly.

Athletes will not be allowed to drive independently or drive themselves and other athletes. We believe this COVID era policy ensure us the best opportunity to enjoy a season that *includes* competition.

LIVE STREAMING & PRACTICE RECORDING

We are working hard to offer new, great solutions for our athletes and families given our new reality. We will install cameras in our training center in the next 30-60 days. Our plan is to offer better tools to our athletes who have missed the opportunities competitions afford for recruiting.

Athletes will be able to share secure links with college coaches to view practice sessions live and have access to recorded footage from practices to update recruiting videos. And, our coaches will have court-side viewing devices to help with training.

We are confident this will be a great tool for our athletes and coaches!
