RULE OF THE MONTH

Every month we will highlight a rule for review.

4) SAFETY

- Safe boat conduct must be observed at all times by competitors.
- During the official competition, each competitor and boat captain must wear a Coast Guard-approved chest-type life preserver when the combustion engine is on. All state life preserver regulations that apply to an angler's age group must be observed and abided by while on tournament waters. The life preserver must be strapped, snapped, or zippered securely, and it must be maintained in that condition at all times.
- All competitors must operate their boats at a safe speed and in a safe manner.
- It is suggested the boat captain have a safety check with their angler(s) each day prior to launch to familiarize the location of all safety equipment.
- Tournament officials have the right to delay, shorten, or cancel the start of the official tournament day due to bad weather or other factors that might endanger the safety of the competitors.
- Tournament waters may also be restricted at any time because of bad weather.
- All persons in a tournament boat shall remain seated in a manufacturer's recommended on-plane seating location when the combustion engine is in gear. Sitting on pedestal seats, front deck, or back deck while the combustion engine is running is not permitted.
- A maximum speed of boat operation shall not exceed 60 MPH during any competition day.
- IN THE EVENT OF AN EMERGENCY SITUATION, COMPETITORS SHOULD CALL 911 FIRST AND, ONCE SAFE, NOTIFY TOURNAMENT OFFICIALS (817-988-2077) AS SOON AS POSSIBLE.
- COMPETITORS ARE ALLOWED TO LEAVE THE BOAT AND SEEK SAFE SHELTER IN BAD WEATHER WHERE DANGER MAY BE IMMINENT.
