

Bridgette Dahlberg

I am deeply interested in serving as a Marauder Board member to contribute to the advancement of a productive, comprehensive, and positive hockey program. As a proud mother of three daughters actively involved in hockey, I am fully invested in the future success of our girls' program and eager to continue building its strength. My family has been part of the Mahtomedi Youth hockey program for six years, with my husband coaching annually and myself assisting in managing. These experiences have been incredibly rewarding, and I am committed to enriching and maintaining the program's vitality.

Although originally from Wisconsin, I have been an active member of the Mahtomedi community since 2013, drawn by its welcoming atmosphere and strong sense of community. My professional background includes a bachelor's degree in Early Childhood Education, a master's degree in School Counseling, and a specialization in Diversity, Equity & Inclusion. This educational foundation, coupled with my experience in fostering inclusivity and diversity, aligns seamlessly with the principles of modern sports governance, where every individual, regardless of background, deserves the opportunity to participate and excel.

While I may not have played hockey myself, my lifelong involvement in athletics, particularly as a gymnast and coach for over ten years, has instilled in me a deep understanding of the transformative power of sports. My experience as an assistant Head Coach for the High School Gymnastics team in Menomonie, Wi., further honed my leadership and program development skills. This background equips me with valuable insights and perspectives that I believe would greatly benefit the board's decision-making processes, ensuring the continued success and growth of the organization.

In summary, my passion for hockey, coupled with my dedication to community involvement and experience in program management, uniquely position me as a strong candidate for the Marauder Board. I am eager to collaborate with fellow board members to implement initiatives that foster accessibility, skill development, and a positive sporting environment for all involved.
