

Alamo Area Youth Soccer

Corona Virus Disease (COVID-19)

Dear Clubs, Parents, and Players,

In recent days, numerous public health agencies – including the Center for Disease Control & Prevention [CDC](#), National Institute of Health [NIH](#) and World Health Organization [WHO](#) – have issued strong recommendations to avoid person-to-person contact to the greatest extent possible.

Gatherings of 10 or more people are now being discouraged.

With this said, AAYSA is taking precautionary measures to ensure all clubs, volunteers, staff members, players, parents, referees, and other siblings/family members are safe during this tough time and to help stop the spread of the virus.

At this current time, we are suspending all soccer activities effective immediately through April 12, 2020, this includes the following leagues (Academy, AAPL/AACL, & In-house recreation). Soccer activities include league play, scrimmages, practices, and trainings. Tournaments are sponsored by the clubs and will continue at their discretion and as they see fit.

Alamo Area will continue to monitor this situation as future updates come in from the public health agencies and we will do what is in the best interest for our soccer communities within San Antonio and the surrounding cities. In the meantime please ensure to stay connected through your club admins, AAYSA'S Social Media Pages- Facebook/Instagram page, and our website www.aaysa.org

SAN ANTONIO
TEXAS

Thank-You,

AAYSA Executive Board
