
Chapter of the Lakeville North High School National Honor Society

Dear Students, Parents, and Guardians:

The mission for the Lakeville North National Honor Society is to strive to develop a community of strong leaders that exemplify the NHS pillars and seeks to serve others. For this reason, NHS would like to give more individuals the opportunity to participate within NHS to develop their scholarship, leadership, service, and character.

The four pillars of the NHS are scholarship, leadership, service, and character. Each of these pillars represents a fundamental aspect of what it means to be an outstanding student and community member. Here's a brief overview of each of the four pillars:

Scholarship: The scholarship pillar recognizes the importance of academic excellence. NHS members are required to maintain a high GPA and participate in academic activities that demonstrate their commitment to learning. Through the participation of NHS in our high school, students will receive a golden tassel at graduation and will be recognized for their accomplishments.

Leadership: The leadership pillar emphasizes the development of leadership skills and the importance of taking an active role in the community. NHS members are encouraged to take on leadership positions and to use their skills to make a positive impact in their schools and communities.

Service: The service pillar highlights the importance of giving back to the community through volunteer work and service projects. NHS members are required to participate in service activities and to demonstrate a commitment to helping others. Each student will be expected to complete 20 individual volunteer hours and 2 chapter hours per semester.

Character: The character pillar recognizes the importance of ethical behavior, integrity, and responsibility. NHS members are expected to demonstrate these qualities in all aspects of their lives and to serve as positive role models for others.

In addition, being a member of the NHS can be a valuable experience for students who are planning to attend college or enter the workforce. Membership in the NHS demonstrates a commitment to academic excellence, leadership, service, and character, which are qualities that colleges and employers value. Students will additionally gain personal experience on what it means to be an active member of a community while developing personal lifelong skills.

Overall, the National Honor Society is an outstanding organization that promotes personal excellence and community giving. Its members are committed to making a positive impact in their communities and to being outstanding students and citizens.
