Process to Determine Quarterfinalists, Semifinalists and/or Finalists.

During preliminary rounds, each team will be awarded:

- two (2) points for a win
- one (1) point for a tie
- zero (0) points for a loss
- in Round Robin Games, ties are ties.

Tie-Breaking Rules to Determine Standings Position

If two or more teams have an equal number of points, their position in the standings shall be determined by the following tie-breaking rules listed below. If at any point during the application of the tie-breaking rules, any or all the teams can be seeded higher or lower than the other teams, the seeded teams will be placed in their position in the standings and the tie-breaking process will begin at Step 1 for any teams that remain tied.

Note: If all tied teams have not played each other, the tie-breaking process will begin at Step 2.

The tie-breaker rules are as follows:

- 1. Step 1: The results of only the head-to-head games played between the tied teams in the following order:
- a. Most points earned.
- b. Most total wins (whether in regulation, overtime, and shootout).
- c. Most regulation wins.
- d. Differential Subtracting goals against from goals for in these games, the positions being determined in order of the greatest surplus. A maximum goal differential of plus or minus eight (8) per game will be used in tie-breaking rules.
- e. Quotient Dividing the goals for by the goals against in these games, the positions being determined in order of the greatest quotient. If a game has a goal differential of more than eight (8) goals, the goals for will be decreased until there is a maximum of eight (8) more than goals against in each game prior to dividing (i.e., 10-1 game would use 9-1 for purposes of quotient. A quotient involving dividing by zero (0) has higher standing than a quotient from dividing by any

number other than zero. Where two or more teams have no goals against and the quotient tie breaker is required, the teams shall be ranked high to low in descending order of "goals for."35

- f. Most periods won In the games played by each tied team, points will be awarded for each regulation period won (2 points) and for each regulation period tied (1 point). Positions shall be in the order of highest point total.
- 2. If all tied teams have not played each other, the tie-breaking process begins at Step 2. For teams that began the tie-breaking process in Step 1, if after applying the formulas of 1 a, b, c, d, e or f the tie still exists, continue to Step 2.

Step 2: The results of all the games played by the teams tied in the following order.

- a. Most total wins (whether in regulation, overtime, and shootout).
- b. Most regulation wins.
- c. Differential Subtracting goals against from goals for in these games, the positions being determined in order of the greatest surplus. A maximum goal differential of plus or minus eight (8) per game will be used in tie-breaking rules.
- d. Quotient Dividing the goals for by the goals against in these games, the positions being determined in order of the greatest quotient. If a game has a goal differential of more than eight (8) goals, the goals for will be decreased until there is a maximum of eight (8) more than goals against in each game prior to dividing (i.e., 10-1 game would use 9-1 for purposes of quotient). A quotient involving dividing by zero (0) has higher standing than a quotient from dividing by any number other than zero. Where two or more teams have no goals against and the quotient tiebreaker is required, the teams shall be ranked high to low in descending order of "goals for."
- e. Most periods won In the games played by each tied team, points will be awarded for each regulation period won (2 points) and for each regulation period tied (1 point). Positions shall be in the order of highest point total.
- f. Lowest number of penalty minutes Calculate the number of penalty minutes accrued during all preliminary round games. The teams shall be ranked low to high in ascending order of "penalty minutes for."
- g. Quickest first goal The team that scored the quickest goal in their preliminary round games shall be ranked highest.
- 3. If the above procedure does not break the tie, the teams shall use a shootout procedure as previously described.

Note: A team may go into the tie-breaking process having defeated another of the tied teams and still not advance.

Note: If a team forfeits any of their games, and becomes involved in any tie-breaking formula, the team that forfeited will not advance and all games played against the forfeiting team shall be recorded as 1-0 victories for all opposing teams
