

FIELD SET-UP INSTRUCTIONS

Bases:

14AA (Rahn Park, AVHS Fields 1-3 and EVHS Fields 1, 6 & 7 and Legion Field) = **90 Feet**

12AAA (JCRPE Softball Complex Fields E-I & JCRPW Field 12) = **75 Feet**

11AAA (JCRPW Fields 2, 3, 9 & 11) = **65 Feet**

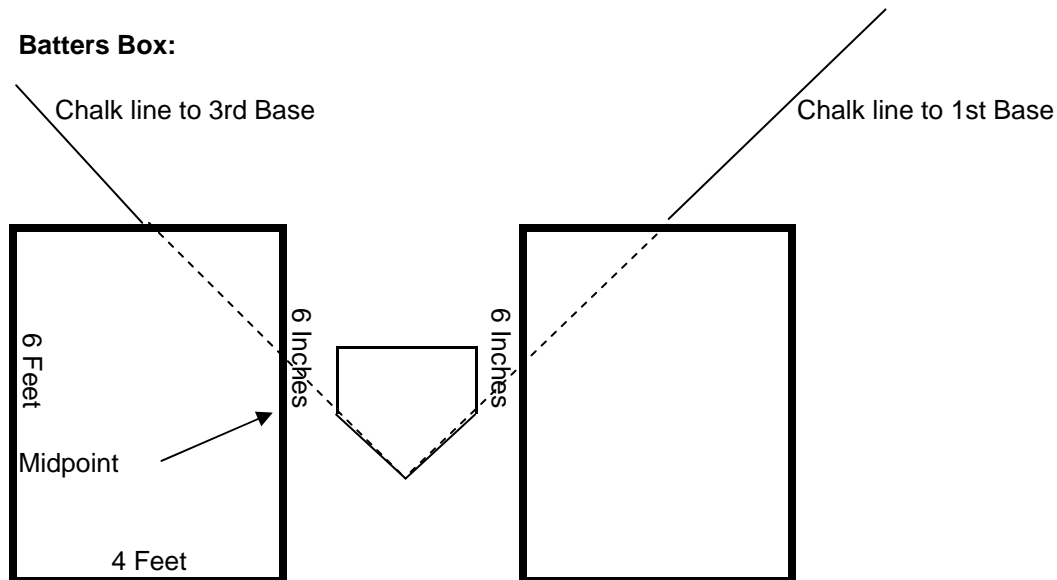

Mound (measured from back of plate to front of rubber):

14AA (Rahn Park, AVHS Fields 1-3 and EVHS Fields 1, 6 & 7 and Legion Field) = **Preset at 60 Feet 6 inches**

12AAA (JCRPE Softball Complex Fields E-I & JCRPW Field 12) = **52 Feet**

11AAA (JCRPW Fields 2, 3, 9 & 11 - NOT LIKELY PRESENT BUT IF SO) = **46 Feet**

Batters Box:

DO NOT CHALK UNTIL THE FIELD HAS BEEN DRAGGED!

Chalk lines all the way to grass down 1st and 3rd Base Lines (outside edge of bases) using the string from point of Home Plate to keep straight.

Do not chalk baseline inside the batters box.

Chalk an On-Deck circle near midpoint of each dugout.

Water the infields as time and equipment (if available) allows. JCRPW fields typically have a connector & spray nozzle in the box and hose hanging on the fence. Hookup is the small green plate in ground near the end of the 1st base fence.

Repair Batter's Box and Pitcher's Mound as needed by tamping in new dirt to make smooth/level.
