In the remaining portions of this application, please present a candid summary of your views on the subjects in question. If selected for an interview, you will be given ample opportunity to expand your presentation on all of these topics. If you need additional space to answer any question, attach extra pages as necessary.

1. In your opinion, what should be the objectives of the volunteer coach and their staff?

2. What specific contributions and/or qualities do you feel you have to offer to the coaching program?

3. It is expected that the national coaches devote time for personal supervision of training camps and competition, and that your selection to the WWF National Volunteer Staff is dependent, in part, on your involvement in WWF Team training camps. Are you prepared to be this active in the WWF National Coaching System?
