

## **FreeState Volleyball Club (FVC) Web/Information Release Form**

The FreeState Volleyball Club will feature player information on the Internet, social media and associated print publications for all interested parties (including college coaches) to be aware of player accomplishments in both high school and club volleyball play. In addition, the club may use a photo of your daughter for use on its website for promotion and informational purposes. For example, photos are typically taken when a team wins a medal at an event and action shots are sometimes shown to give the public a better idea of the club's mission. From time to time press releases are sent to area newspapers as well.

Featuring player information is totally voluntary for each member of FVC. Please consider this carefully and indicate your consent to participation.

Please feel free to contact any member of the FreeState Volleyball Club staff should you have any questions.

I hereby consent to the above-named player being featured in the FreeState Volleyball Clubs website, social media and associated print publications. I acknowledge being advised of the intent of the FVC to feature the below-named player on the Internet. I understand that my address, telephone number and email will not be available to anyone who is not connected with the FVC without my express consent, verbal or written. I further understand that compliance with NCAA regulations concerning contact with collegiate coaches is my sole responsibility and I do not hold any member of the FVC accountable for any actions I may take which are deemed inappropriate by NCAA policies and regulations.
