GOLD MEDAL REMATCH

It is the first time since the 2015 IIHF World Junior Championship, when Sweden and Finland squared off in quarterfinals, that the previous year's gold-medal game teams played one another in quarterfinals the following year. The U.S. has medaled in seven of the last ten years, including its current four-year podium streak (gold - 2017; silver - 2019; bronze - 2018, 2016), the first time it has accomplished the feat in U.S. history. Only Russia, with eight medals, has more than USA since 2010.

U.S. VERSUS FINLAND

Finland defeated the U.S., 3-2, in the 2019 World Junior Championship gold-medal game, as Kaapo Kakko scored with 1:26 remaining in regulation. Finland has not won back-to-back World Junior Championship games against the U.S. since 2003.

ABOUT THE STAFF

ABOUT VANBIESBROUCK

John Vanbiesbrouck is serving as general manager of the 2020 U.S. National Junior Team. He served in a similar role for the 2019 silver medal-winning U.S. National Junior Team. The 2007 U.S. Hockey Hall of Fame inductee has previously represented the United States as a player on nine occasions, including one Olympic Winter Games (1998), two Canada Cups (1987, 1991), four men's world championships (1985, 1987, 1989, 1991) and two world junior championships (1982, 1983). A full-time employee of USA Hockey, Vanbiesbrouck began his duties as assistant executive director of hockey operations for USA Hockey on June 4, 2018. His responsibilities include oversight of all of USA Hockey's international efforts, including its men's, women's and sled programs as well as the National Junior Development Program.

ABOUT SANDELIN

Head coach of the University of Minnesota Duluth men's ice hockey team, **Scott Sandelin** is head coach of the 2020 U.S. National Junior Team. He returns to the U.S. National Junior Team bench for a fourth time, and his second as head coach. Sandelin, who coached the U.S. to a fourth-place finish on home ice in 2005 in Grand Forks, North Dakota, and Thief River Falls, Minnesota, was an assistant coach on last year's silver medal-winning entry and fulfilled the same duties in 2012. Sandelin, who skated in the 1982 World Junior Championship, joins **Phil Housley** as the only two U.S. head coaching members to both coach and play in the World Junior Championship. Sandelin's time behind the Bulldogs bench has been highlighted by a trio of NCAA national championships, including back-to-back title wins the last two seasons (2017-18, 2018-19). Since taking the helm in 2000-01, his 21-6 record and .778 win percentage in NCAA Tournament play is the best of any active bench bosses.

COACHING STAFF'S WINNING PEDIGREE

All five members of the 2020 U.S. National Junior Team coaching staff hold winning pedigrees at the collegiate and international level. Combined, the staff has coached 108 NCAA seasons while contributing to eight international medals, six NCAA national titles and 13 conference championships (post-season). Internationally, the five coaches have represented the U.S. a combined 16 times. **Scott Sandelin, David Lassonde, Steve Miller** and **Jerry Keefe** all served as assistants on last year's silver medal-winning 2019 U.S. National Junior Team. Lassonde was an assistant for the gold medal-winning 2013 U.S. National Junior Team. Additionally, Miller helped the 2017 U.S. National Junior Team to a gold medal finish. **Brett Larson** most recently served as head coach for the 2012 U.S. Junior Select Team that won the World Junior A Challenge.

TEAM USA AMERICAN HOCKEY DEVELOPMENT TIES

USA HOCKEY'S AMERICAN DEVELOPMENT MODEL

The American Development Model, now in its 10th season, is USA Hockey's nationwide player development program for youth hockey associations. It's based on age-appropriate, age-specific competition and training for boys and girls, beginning with their first steps onto the ice and carrying them through age 18 and beyond. The ADM places a heightened emphasis on skill development and long-term athlete development principles, providing a blueprint for the best possible youth hockey experience.

At the younger age levels, it looks like fun and constant motion in small spaces. The ADM encourages station-based practices, small-area games and cross-ice competition to deliver more repetitions, more puck touches and more skill development per hour of ice time. It provides the most efficient, most engaging development path for children, keeping them both in the game and on a path toward their full potential.
