

CEVA CLUB DIRECTORS' UPDATES – 10/13/2021

- **As you activate your clubs and begin working on building teams in your SportsEngine HQ, please make sure you have integrated your AES account with your SE account. If you need to create an AES account – [please contact the office](#). We can help you with this. You will need an AES account to register for most CEVA-owned events.**
- We have an extensive [SportsEngine and AES help library](#) on our website, and that page also has several links to help articles provided by SE. Please use it as a reference. As always, you can reach out to us and we'll do our best to help, answer questions, etc.
- Junior Girls' tryouts may begin on 11/7 (14s & under) and 11/21 (15s & older). Clubs are not required to hold tryouts on this date, nor are clubs required to hold tryouts at all. These are dates tryouts may legally start, and letters of commitment may be signed.
- Please be mindful of the following language from the Junior Handbook:
 - o No person or club with a current or prior season registration/membership with CEVA may promote, organize or run any camps, clinics or private lessons beginning the **Saturday one week before tryouts** for each respective age group. Open gyms are allowed, but no club representatives (club director, administrator, coach, etc.) may be in the gym.
 - o Exceptions for scheduled developmental league programming for middle school aged players are allowed with prior approval from CEVA (i.e., CYO, Boys & Girls Clubs).
- The CEVA Letter of Commitment will be posted on our [Documents page](#) on November 1st. You can access this site's resources at any time. Point your parents and players to this page to download a copy of the Medical Release Form. You can also find copies of handbooks, waivers, and policies for your information.
- On November 8th, age waivers, boy on girls' team waivers, scholarship applications, and applications to join the CEVA CAAC will be available. This is in addition to the tournament registrations for CEVA-owned events that open that day.

IMPORTANT NOTE ABOUT SAFESPORT TRAINING

Safesport training is being moved to a new online platform prior to the end of the calendar year. We do not have an exact date for this transition at present. However, what we know is when that transition happens, training "in progress" at the time will be reset and progress will be lost. We will give you as much notice as possible regarding this transition. However, our recommendation is to complete Safesport training in one sitting if at all possible. When training is complete, your certification will save across any online platform and there will be nothing to worry about. If you have questions about this topic, please contact [Cody March](#).
