

Coach Credentials & Relay Only Athletes

Hello coaches!

We have just launched the coach credentials and relay-only swimmer functions on the site!

I have attached a photo of where to purchase your coach credentials and you can also check out this tutorial [here](#). You may purchase multiple coach credentials at one time for all coaches on your team, or each coach may purchase their own credential.

For relay-only athletes, you can enter them as relay-only in the same way you would enter them into individual events. This can be done for individual athletes, or for a roster group. When you get to the entry page, please click the box to mark the athlete as relay-only at the bottom of the page (photo is attached.) Once an athlete is entered as relay-only, they may still go in and enter themselves into individual events. You can also see a tutorial [here](#).

If you need help with either of these items, or anything else, please reach out to us support@fastswims.com.

Thank you!

Carlene Takaki, FastSwims
