COVID-19 - CORONA VIRUS - ADVISORY

March 12, 2020

We at BCMBA all share the same concerns of our member Associations in regards to the health and safety of their players, coaches, parents and volunteers, as well as all other organizations, and we trust that the health and safety of our communities will be put ahead of, in our case, baseball activities.

By observing the limiting of “Social Gathering” as suggested over the past week by health officials we can all be a part of one of the most important precautions needed to limit the spread of respiratory viruses such as COVID-19 and Influenza.

With this in mind we strongly suggest that you monitor the situation in your location, take precautions as suggested for personal hygiene and interaction with others and create your own policies such as limiting practice and travel games, etc.

BCMBA in concert with Baseball BC are monitoring the situation and have not received any notifications or directives on the cancellation of baseball activities within Canada, nor has there been any limitations set.

At this time BCMBA is looking forward to the Coaching Caravan at the end of March but will be monitoring the “social gathering” policies as they arise.

Other programming such as the High Performance Development Camps will be treated with the same caution and we strongly suggest to all our members that they do the same at this time.
