User Agreement - Digital Signature Required

CONFIDENTIALITY (Non Disclosure) AGREEMENT (rev 2.0)

This agreement covers proprietary information belonging to GotSoccer, LLC (the "Discloser") that is made available or disclosed to the party signing this agreement (the "Recipient"). This information (referred to as the "Confidential Information") includes, but is not limited to, software products (Software Products), software source code (Software Source Code), documentation, and correspondences, all rights to which are owned or controlled by Discloser, that have not otherwise been made publicly available by the Discloser. Confidential Information, however, does not include: (a) information generally available to the public; (b) widely used programming practices or algorithms; (c) information rightfully in the possession of the Recipient prior to signing this agreement; (d) content added by the Recipient and (e) information independently developed without the use of any of the provided Confidential Information.

The Recipient agrees to hold the Confidential Information in strict confidence and shall not disclose such information to any third party without the written permission of the Discloser. The Recipient also agrees to employ all steps necessary to protect the Confidential Information from unauthorized disclosure or use, including without limitation, all steps the Recipient uses to protect information they consider proprietary and a trade secret.

The Recipient shall refrain from directly or indirectly acquiring any interest in, or designing, creating, manufacturing, selling or otherwise dealing with any item or product containing the Confidential Information received by Recipient under this agreement. The Recipient acknowledges and agrees that any Software Source Code and Software Products received under this agreement, and any Software Products derived or compiled from the Software Source Code, are subject to the following limitations:

1. Recipient may use the Software Products from the date of this agreement, or with a valid software license obtained from the Discloser. All other uses are expressly forbidden by this agreement.
2. Recipient may choose to create secondary user accounts for the purpose of allowing staff members or business associates access to administrative tasks related to the business operations of the primary account holder. Assigning access to a third party for the purpose of revealing software design or functionality is forbidden and is a violation of this contract. Additionally, all secondary accounts accessing your account are subject to this user agreement and are required to sign a Non Disclosure Agreement before usage will be allowed.
3. Recipient is subject to all terms and limitations set forth in all separate software licenses provided by Discloser to Recipient with the Software Source Code. Neither party of this Agreement may assign this Agreement or any rights or obligations under it, without prior written consent by both parties, and any attempt to do so is void; and neither grants the other any licenses under any patents or copyrights.

The Discloser provides the Confidential Information on an AS IS basis and is not responsible for any damages arising out of the use of the Confidential Information made available under this agreement.

This agreement shall be governed by and construed in accordance with the laws of the State of Delaware, the United States, and any applicable international law.

7. You can/may change your password here.

The screenshot shows the 'Change Password' form in the GotSoccer user interface. The user is logged in as 'tylersa/manual'. The form includes instructions on password requirements and a list of account details. The 'Change Password' tab is highlighted with a red box. The 'Save' button is also highlighted with a red box.

Change Password

Passwords must contain a combination of both letters and numbers as a minimum (Level 2). For the highest level of security, also include one or more symbols (such as ! or # or \$ etc.) and a combination of upper and lowercase text. Please remember your password exactly as you enter it below. Passwords are now Case Sensitive.
